Anna Coote, Beatrix Campbell, 1982-01-01 **Gender in the 21st Century** Caroline Sweetman, 2000 Women throughout the world are still economically politically and socially marginalised at a time when globalisation is radically changing our world From the perspective of development specialists and feminist activists this book considers the challenges facing gender and development practitioners and policy makers in the 21st century **Historicising the Women's Liberation Movement in**

the Western World Laurel Forster, Sue Bruley, 2019-07-09 The Women s Liberation Movement WLM of the late 1960s 1970s and 1980s emerged out of a particular set of economic and social circumstances in which women were unequally treated in the home the workplace and in culture and wider society As part of the WLM women collected together in disparate groups and contexts to express their dissatisfaction with their role and position in society making their concerns apparent through consciousness raising and activism This important time in women s history is revisited in this collection which looks afresh at the diversity of the movement and the ways in which feminism of the time might be reconsidered and historicised The contributions here cover a range of important issues including feminist art local activism class distinction racial politics perceptions of motherhood girls education feminist print cultures the recovery of feminist histories and feminist heritage and they span personal and political concerns in Britain Canada and the United States Each contributor considers the impact of the WLM in a different context reflecting the variety of issues faced by women and helping us to understand the problems of the second wave This book broadens our understanding of the impact and the implication of the WLM explores the dynamism of women s activism and radicalism and acknowledges the significance of this movement to ongoing contemporary feminisms The chapters in this book were originally published as a special issue of *Women s History Review* **Tactical Readings**

Revolution Sheila Jeffreys, 2018-09-03 The Lesbian Revolution argues that lesbian feminists were a vital force in the Women s

Liberation Movement WLM They did not just play a fundamental role in the important changes wrought by second wave feminism but created a powerful revolution in lesbian theory culture and practice Yet this lesbian revolution is undocumented The book shows that lesbian feminists were founders of feminist institutions such as resources for women survivors of men s violence including refuges and rape crisis centres and that they were central to campaigns against this violence They created a feminist squatting movement theatre groups bands art and poetry and conducted campaigns for lesbian rights They also created a profound and challenging analysis of sexuality which has disappeared from the historical record They analysed heterosexuality as a political institution arguing that lesbianism was a political choice for feminists and indeed a form of resistance in itself Using interviews with prominent lesbian feminists from the time of the WLM and informed by the author s personal experience this book aims to challenge the way the work and ideas of lesbian feminists have been eclipsed and to document the lesbian revolution The book will be of key interest to scholars and students of women s history the history of feminism the politics of sexuality women s studies gender studies lesbian and gay studies queer studies and cultural studies as well as to the lay reader interested in the WLM and feminism more generally

The Long Sexual Revolution Hera Cook,2004-02-05 In this book Hera Cook traces the path of sexuality in England and shows how its route was determined by the gradual exertion of control over fertility Most sexual activity had major economic and social costs the most fundamental of which was the physical cost of children upon women s bodies Around 1800 birth rates reached historical heights Using a combination of demographic and qualitative sources Dr Cook examines the connection between the struggle to lower fertility and the increasing repression of sexuality throughout the nineteenth century Contraception became a viable option in the early twentieth century The book charts the resulting slow relaxation of attitudes to sexuality and the remaking of heterosexual physical behaviour culminating in the sexual revolution of the 1960s

Masterpieces Sarah Daniels, 2016-01-28 You are not at liberty to avenge the

pornography industry in this country We have the censorship laws for that Masterpieces opens on three couples having dinner in a restaurant exchanging sexist jokes The response is varied some of them laugh uproariously some of them uncomfortably and one is deeply unhappy Their domestic discussion about the morality of pornography is suddenly amplified a thousand fold in the next scene in which Rowena is on trial for murder She had just been to see a snuff film in which a porn actress is actually mutilated and killed on screen and on her way home is approached threateningly by a man who she ends up pushing under a train because he was harassing her The play is the story of Rowena s journey through seeing a porn magazine for the first time to a thwarted attempt to help an unhappy prostitute from uncomfortable laughter to radical and disgusted protest at female subjugation Masterpieces is an angry and defiant play first staged in 1983 at the Royal Exchange Theatre Manchester before transferring to the Royal Court Theatre London It earned Daniels a London Theatre Critics Award for Most Promising Playwright This edition introduces Sarah Daniels into the Modern Classics series and features an introduction by Elaine Aston Professor of Contemporary Performance at Lancaster University

Feminist Lives Lynn Abrams, 2023-10-03 Could women be feminist without feminism Could they foster feminist activism without a movement or an ideology Could they recraft ways of being female without a plan Feminist Lives adopts a woman centred approach to explore these questions and to understand how British women charted a new way of being female in the three decades before the Women s Liberation Movement By focusing on the transition generation of women who were born in the long 1940s and who grew to maturity in the 1950s 60s and 70s the book demonstrates that it was they who developed the aspirational model of womanhood that then emerged after 1970 as the norm amongst women in the global north In doing so Feminist Lives seeks to fill the feminist history gap countering a narrative that has for too long neglected this generation of women as fusty and failing and as just not feminist enough Using women s voices as the book s evidential and emotional core as they describe themselves their relationships their feelings and actions this volume analyses the modes by which women constructed a modern self built upon new ways of living feeling and being

Women and Employment in Public Policy Susan Milner, 2024-07-15 In the UK women s economic empowerment through employment is a success story of the last three decades And yet women are over represented in low paid insecure jobs are under represented in top jobs and earn less than men on average with a marked income gap over the lifecourse When Labour took office in 1997 a new wave of women MPs entered parliament in record numbers and women gained access to ministerial roles including a newly created minister for women However policy on women and employment remained an area of conflict New rights were secured particularly for mothers but when Labour left office a sizeable policy agenda remained unfinished Using documentary evidence and interviews from leading policy actors from the period Women and Employment in Public Policy takes as its starting point the Women and Work Commission which was convened in 2004 to examine causes of the gender pay gap The commission was unable to defuse conflicts over equal pay but it set out an agenda for change at the level of government private sector work

organizations and public sector organizations Milner examines why the commission could not resolve key conflicts and why its broad based recommendations were only partially taken up She traces the subsequent development of policy observing well established preferences for light touch regulation which can raise awareness but leave entrenched practices unchallenged and weaken individual women s access to redress Detailed study of the working of the commission provides lessons on the policy process particularly for those seeking to influence policy It also shows that within the wider policy space opportunities for action to effect change are possible based on appeals to instrumental logic or political exchange but are constrained by party leadership
