The Singing Bourgeois Derek B. Scott, 2017-07-05 First published in 1989 *The Singing Bourgeois* challenges the myth that the Victorian parlour song was a clear cut genre. Derek Scott reveals the huge diversity of musical forms and styles that influenced the songs performed in middle class homes during the nineteenth century from the assimilation of Celtic and Afro American culture by songwriters to the emergence of forms of sacred song performed in the home. The popularity of these domestic songs opened up opportunities to women composers and a chapter of the book is dedicated to the discussion of women songwriters and their work. The commercial success of bourgeois song through the sale of sheet music demonstrated how music might be incorporated into a system of capitalist enterprise. Scott examines the early amateur music market and its evolution into an increasingly professionalized activity towards the end of the century. This new updated edition features an additional chapter which provides a broad survey of music and class in London drawing on sources that have appeared since the book's first publication. An overview of recent research is also given in a section of additional notes. The new bibliography of nineteenth century British and American popular song is the most comprehensive of its kind and includes information on twentieth century collections of songs, relevant periodicals, catalogues, dictionaries and indexes as well as useful databases and internet sites. The book also features an accompanying CD of songs from the period.

Mabel Daniels: An American Composer in Transition Maryann McCabe, 2017-10-05 *Mabel Daniels 1877-1971: An American Composer in Transition* assesses Daniels within the context of American music of the first half of the twentieth century. Daniels wrote fresh sounding works that were performed by renowned orchestras and ensembles during her lifetime but her works have only recently begun to be performed again. The book explains why works by Daniels and other women composers fell out of favor and argues for their performance today. This study of Daniels's life and works evinces transition in women's roles in composition, the professionalization of women

composers and the role that Daniels played in the institutionalization of American art music Daniels's dual role as a patron composer is unique and expressive of her transitional status Spirituals and the Birth of a Black Entertainment Industry Sandra Jean Graham, 2018-02-26 Spirituals performed by jubilee troupes became a sensation in post Civil War America First brought to the stage by choral ensembles like the Fisk Jubilee Singers spirituals anchored a wide range of late nineteenth century entertainments including minstrelsy variety and plays by both black and white companies In the first book length treatment of postbellum spirituals in theatrical entertainments Sandra Jean Graham mines a trove of resources to chart the spiritual's journey from the private lives of slaves to the concert stage Graham navigates the conflicting agendas of those who in adapting spirituals for their own ends sold conceptions of racial identity to their patrons In so doing they lay the foundation for a black entertainment industry whose artistic financial and cultural practices extended into the twentieth century A companion website contains jubilee troupe personnel recordings and profiles of 85 jubilee groups Please go to http://www.press.uillinois.edu/books/graham_spirituals
