Sweeter Than Candy:

Love is sweeter than candy PAROMITA DAS, 2024-07-10 It is said that even water tastes sweeter when you are in love. Love doesn't mean a romantic relationship between a male and female but it is emotion which can make any relationship more stronger than ever whether it is parents love siblings love or friends love. Like chocolate is one of the sweetest food of the world which can bring smile in anyone's face but love is more sweeter than chocolate because it gives an intense deep affection for another person. It involves intimacy passion and commitment care closeness sweetness protectiveness attraction affection and trust. Love can vary in intensity and can change over time. It is associated with a range of positive emotions including happiness excitement and life satisfaction. Love and chocolate both filled lots of sweetness in anyone's life. But after all research and arguments Love is always sweeter than candy. *Discourse Configurational Languages* Katalin É Kiss, 1995. Comprising eleven studies on languages with designated structural topic and focus positions this volume includes an introduction surveying the empirical and theoretical problems involved in the description of this language type. Focusing on languages outside the traditional Indo-European group the essays look at Chadic Somali Basque Catalan Old Romance Greek Hungarian Finnish Korean and Quechua. The papers provide interesting new empirical data as well as a variety of means and alternatives of representing them structurally. At the same time they address important theoretical questions in the framework of generative theory. This is the first study to apply methods of comparative syntax to the study of topic and focus.
