to the Dead LeRhonda S. Manigault-Bryant, 2014-05-14 Talking to the Dead is an ethnography of seven Gullah Geechee women from the South Carolina lowcountry. These women communicate with their ancestors through dreams, prayer, and visions, and traditional crafts and customs such as storytelling, basket making, and ecstatic singing in their churches. Like other Gullah Geechee women of the South Carolina and Georgia coasts, these women through their active communication with the deceased make choices and receive guidance about how to live out their faith and engage with the living. LeRhonda S. Manigault-Bryant emphasizes that this communication affirms the women's spiritual faith, which seamlessly integrates Christian and folk traditions and reinforces their position as powerful culture keepers within Gullah Geechee society. By looking in depth at this long-standing spiritual practice, Manigault-Bryant highlights the subversive ingenuity that lowcountry inhabitants use to thrive spiritually and to maintain a sense of continuity with the past.

The New Encyclopedia of Southern Culture Carol Crown, Cheryl Rivers, Charles Reagan Wilson, 2013-06-03 Folk art is one of the American South's most significant areas of creative achievement, and this comprehensive yet accessible reference details that achievement from the sixteenth century through the present. This volume of *The New Encyclopedia of Southern Culture* explores the many forms of aesthetic expression that have characterized southern folk art, including the work of self-taught artists as well as the South's complex relationship to national patterns of folk art collecting. Fifty-two thematic essays examine subjects ranging from colonial portraiture, Moravian material culture, and southern folk pottery to the South's rich quilt-making traditions, memory painting, and African American vernacular art. And 211 topical essays include profiles of major folk and self-taught artists in the region.

A Delicate Balance Angela C. Halfacre, 2013-04-15 Sustainability of the natural environment and of our society has become one of the most urgent challenges facing modern Americans. Communities across the country are seeking a viable pattern of growth that promotes prosperity, protects the environment, and preserves the distinctive quality of life of their regions. The coastal zone of South Carolina is one of the most endangered, culturally complex regions in the state and perhaps in all of the American South. *A Delicate Balance* examines how a multilayered culture of environmental conservation and sustainable development has emerged in the lowcountry of South Carolina. Angela C. Halfacre, a political scientist, describes how sprawl, shock, natural disaster, climate change, and other factors spawned and sustain but also threaten and hinder the culture of conservation. Since Hurricane Hugo in 1989, the coastal region of South Carolina has experienced unprecedented increases in residential and commercial development. *A Delicate Balance* uses interdisciplinary literature and ethnographic, historical, and spatial methods to show how growing numbers of lowcountry residents, bolstered by substantial political, corporate, and media support, have sought to maintain the region's distinctive sense of place as well as its fragile ecology. The diverse social and cultural threads forming the fabric of the lowcountry conservation culture include those who make their living from the land, such as African American basket makers and multigenerational farmers, as well as those who own, manage, and develop the land and homeowner association members. Evolving perceptions, policies, and practices that

characterize community priorities and help to achieve the ultimate goal of sustainability are highlighted here As Halfacre demonstrates maintaining the quality of the environment while accommodating residential commercial and industrial growth is a balancing act replete with compromises This book documents the origins goals programs leaders tactics and effectiveness of a conservation culture A Delicate Balance deftly illustrates that a resilient culture of conservation that wields growing influence in the lowcountry has become an important regional model for conservation efforts across the nation A Delicate Balance also includes a foreword by journalist Cynthia Barnett author of Blue Revolution Unmaking America's Water Crisis and Mirage Florida and the Vanishing Water of the Eastern U S

[The SAGE Encyclopedia of African Cultural Heritage in North America](#) Mwalimu J. Shujaa, Kenya J. Shujaa, 2015-07-13 The Encyclopedia of African Cultural Heritage in North America provides an accessible ready reference on the retention and continuity of African culture within the United States Our conceptual framework holds first that culture is a form of self knowledge and knowledge about self in the world as transmitted from one person to another Second that African people continuously create their own cultural history as they move through time and space Third that African descended people living outside of Africa are also contributors to and participants in the creation of African cultural history Entries focus on illuminating Africanisms cultural retentions traceable to an African origin and cultural continuities ongoing practices and processes through which African culture continues to be created and formed Thus the focus is more culturally specific and less concerned with the broader transatlantic demographic political and geographic issues that are the focus of similar recent reference works We also focus less on biographies of individuals and political and economic ties and more on processes and manifestations of African cultural heritage and continuity
