Sweetie Baby Cookie Honey:

Sweetie Baby Cookie Honey Freddie Gershon,1987 **Sweetie, Baby, Cookie, Honey** Fredric B. Gershon,1986 An electrifying novel of the entertainment industry by a top level insider that concerns a young man's rise to stardom

Sweetie, baby, cookie, honey Freddie Gershon,1987 **Soundtrack from Saturday Night Fever** Clinton Walker,2024-08-08 Saturday Night Fever is simultaneously one of the biggest selling albums of all time and one of the most reviled How can a record create such a polarizing reaction Australian writer Clinton Walker attempts to answer that question and finds that among other things a certain seemingly unlikely Australianness is part of the reason Fever was a supernova for disco for the Bee Gees for the domineering Robert Stigwood producer of the film and its true auteur and for the entire record business This book traces all the interdependent convolutions that fed into the film and its music not least the Australian roots that Stigwood and Gibb brothers shared which gave them an Otherness and almost gormless shape shifting self determination and it finds that sometimes great art can be made by a committee that sometimes five songs are enough to change the world The New York Times Book Review ,1986-07 Presents extended reviews of noteworthy books short reviews essays and articles on topics and trends in publishing literature culture and the arts Includes lists of best sellers hardcover and paperback

Language and Characterisation in Television Series Monika Bednarek,2023-03-15 This book explores how language is used to create characters in fictional television series To do so it draws on multiple case studies from the United States and Australia Brought together in this book for the first time these case studies constitute more than the sum of their parts They highlight different aspects of televisual characterisation and showcase the use of different data methods and approaches in its analysis Uniquely the book takes a mixed method approach and will thus not only appeal to corpus linguists but also researchers in sociolinguistics stylistics and pragmatics All corpus linguistic techniques are clearly introduced and explained and the book is thus accessible to both experienced researchers as well as novice researchers and students It will be essential reading in linguistics literature stylistics and media television studies
