Our Dolphin Ancestors Frank Joseph, 2016-03-17 Reveals the shared ancestry behind our affinity with dolphins and our shared destiny Explains how we are both descendants of the aquatic ape and still share many physiological features with dolphins that set us apart from other primates Explores dolphins communication with other species and how dolphin therapy has miraculous effects on people with autism cancer stroke and depression Explores the connections between dolphins and Atlantis and Lemuria Wild animals avoid contact with humans but wild dolphins seek us out to play and socialize even going so far as to voluntarily rescue people from drowning What explains this remarkable natural affinity Revealing the evolutionary basis for our special relationship with dolphins Frank Joseph explains how we are both descendants of the same ancient branch of human ity Building upon the aquatic ape theory he details how we both began on land but devastating floods forced our distant ancestors into the seas where humanity developed many of the traits that set us apart from other primates such as our instinctive diving reflex and our newborns ability to swim But while some of the aquatic apes returned to land later evolving into modern humans some remained in the cradle of Mother Ocean and became our dolphin cousins Integrating scientific research on dolphin intelligence communication and physiology with enduring myths from some of the world s oldest cultures such as the Aborigines Norse Greeks and Celts the author examines our physical commonalities with dolphins including their vestigial thumbs and legs birth processes and body temperature He explores dolphins uncanny ability to diagnose disease such as cancer in humans and how dolphin therapy has had miraculous effects on children with autism victims of stroke and those suffering from depression He provides evidence for dolphins different attitudes toward men women and children their natural affinity with cats and dogs and their telepathic communication with other species including ours He explores dolphins mysterious role in the birth of early civilization and their connections with the Dog Star Sirius and Atlantis and Lemuria a bond still commemorated by annual gatherings of millions of dolphins As Frank Joseph shows if we can learn to fully communicate with dolphins accessing their millennia old oral tradition we may learn the truth about humanity s origins and our shared future when humankind may yet again quit the land for a final return to the sea

Dance to a Dolphin's Song Horace E. Dobbs, 1990 After studying dolphins for many years Dr Horace

Dobbs came to the conclusion that these highly intelligent mammals were using their brains in a way that could benefit human beings To test his theory he decided to step outside the confines of his scientific training and film an experiment for television That film *The Dolphin's Touch* records how he invited three people suffering from different forms of stress and depression to swim with a wild dolphin off the Irish coast In the case of the middle aged man the encounter had a dramatic effect while the outlook of two younger participants improved significantly For Dr Dobbs they served to confirm other similar transformations and persuaded him that it might be possible through video film and audio tapes of dolphin song to bring the healing power of dolphins to anyone unable to experience it at first hand The result leaves he argues little room for doubt that dolphins can generate a sense of well being in people In this book the author conveys not only the joy to be experienced when cavorting in the sea with a wild dolphin he also provides clues to the mental dexterity and perception of one of the smallest of the whale family *Books Out Loud* ,2004 Official Gazette of the United States Patent and Trademark Office ,2005 Capturing the Aura 'Integrating Science, Technology, and Metaphysics C.
