of mega cities to counties small town councils and villages Their focus is either multi purpose in the case of municipalities or single purpose in the case of special districts and school districts What unites these institutions of state is that there is no level of government below them That is also their strength and the source of their democratic claim they are the government closest to the people Political science experts from across the globe examine local governments by drawing on case studies of Australia Austria Brazil Canada Germany India Mexico Nigeria Switzerland Spain South Africa and United States Contributors include Martin Burgi Ruhr University Bochum Luis Cesar de Queiroz Ribeiro Federal University of Rio de Janeiro Jaap de Visser University of Western Cape Habu Galadima University of Jos Sol Garson Federal University of Rio de Janeiro Boris Graizbord National College of Mexico Rakesh Hooja HCM Rajasthan State Institute of Public Administration India Andreas Kiefer European Affairs Office of the Land Salzburg Andreas Ladner Swiss Graduate School of Public Administration George Mathew Institute of Social Sciences India Mike Pagano University of Illinois at Chicago Graham Sansom University of Technology Sydney Franz Schausberger Salzburg University Nico Steytler University of Western Cape Francisco Velasco Caballero Universidad Autonoma de Madrid and Robert Young University of Western Ontario

Power-Sharing and Consociational Theory Brigid Brooks Kelly, 2019-03-25 Fifty years ago academics and policymakers throughout the world agreed that it was impossible for certain sets of historically antagonistic groups to coexist peacefully on a long term basis This book examines the system of consociation which was identified by Arend Lijphart and ended that pessimistic consensus Lijphart's specific observations concerning the impact of consociation are assessed quantitatively and qualitatively facilitated through careful operationalization of his descriptions of consociation's four components grand coalition minority veto proportionality and segmental autonomy Insights derived from a dataset representing the experiences of eighty eight countries are examined further through case study analysis of the seven societies most often discussed in relation to consociation Austria Belgium Canada the Netherlands Northern Ireland South Africa and Switzerland The components of consociation are found to promote lasting peace in divided societies most successfully when combined with additional incentives for the

encouragement of cross cutting cleavages and shared loyalties **The Referendum in Britain** Lucy Atkinson,Andrew Blick,Matt Qvortrup,2020-11-29 The European Union referendum of 23 June 2016 proved to be the trigger for the most prolonged period of political turbulence in the peacetime history of the UK leading to major policy changes and realignments in the party political system This book considers from an historical perspective the democratic device that provided the focus for this upheaval Beginning in the late nineteenth century it discusses how the idea of using referendums to resolve major political disputes first came onto the agenda and why It considers who advocated it and in what circumstances The book describes how referendums eventually came into use from the 1970s onwards and the different patterns in their deployment in the decades that have followed Major political figures from Herbert Henry Asquith and Winston Churchill to Clement Attlee Harold Wilson and Margaret Thatcher to Tony Blair David Cameron and Boris Johnson form part of the story Governments have come to power and fallen in the context of demands for referendums or the results they produced The authors provide detailed accounts of each of the 13 major referendums that have taken place Referendums took place at UK and sub UK level They were held on the position of Northern Ireland 1973 and Scotland 2014 within the UK on devolution to Wales 1979 1997 2011 and Scotland 1979 1979 on the Belfast Good Friday Agreement 1998 on devolution to London 1998 and North East England 2004 on the parliamentary voting system 2011 and on UK participation in European integration 1975 1975 The book provides a constitutional and international perspective and ask how far the original ideas lying behind the referendum were fulfilled in practice Political Representation Marc Bühlmann,Jan Fivaz,2016-04-14 In an ideal democracy representatives would entirely reflect citizens views preferences and wishes in their legislative work However real life democracies do not meet this ideal and citizens policy preferences and priorities are mirrored only inadequately This book provides new insights on political representation It is guided by three questions what roles should representatives play Who is actually or should be represented How are the representatives or how should they be connected with the represented Containing contributions from the perspectives of political theory and philosophy as well as quantitative empirical studies the volume demonstrates the need to adapt these established questions to new political realities This text will be of key interest to scholars and students of political representation and parties political theory democratic theory political philosophy and comparative politics Governments' Responses to the Covid-19 Pandemic in Europe Kennet Lynggaard,Mads Dagnis Jensen,Michael Kluth,2022-12-01 This book examines similarities and differences in 31 European governments responses to the COVID 19 pandemic The COVID 19 pandemic hit Europe in early 2020 It spread across the continent during the Spring while anxious electorates were treated to news reports about health systems under duress and frustrated attempts by public procurement officials to obtain adequate supplies of medical and protective equipment Over the next 15 18 months considered by this book national responses exhibited both similarities and profound variations as the different endeavours to regulate social interactions constituted a stress test for political systems across Europe *Public City* Beau B Beza,Brendan

Gleeson,2014-11-25 Paul Mees urban ideal counted on watchful confident and well informed citizenry to work collectively in a quest for fair and just cities As such The Public City is largely a critique of neo liberalism and its arguably negative influence on urban prospects As Mees explained it neo liberal urbanism was much more than a political aberration it was a threat that imposed many costly failures in an age overshadowed by grave ecological challenges Fifteen of Australia and New Zealand s leading urban scholars including Professor Emeritus Jean Hillier and Professor Brendan Gleeson have contributed to this collection The Public City includes a foreword by the late Professor Sir Peter Hall a world leader in urban planning from Britain Kenneth Davidson one of Australia s top economic columnists has also contributed a chapter The collective works in this book extend beyond an analysis of urban patterns to provide a blueprint for the improvement of civic and institutional purpose in the creation of the public city **Regional and National Elections in Western Europe R.**

Dandoy,A. Schakel,2013-11-19 Utilizing both historical and new research data this book analyzes voting patterns for local and national elections in thirteen west European countries from 1945 2011 The result of rigorous and in depth country studies this book challenges the popular second order model and presents an innovative framework to study regional voting patterns *A Comparative Study of Referendums* Mads Qvortrup,Matt Qvortrup,2002 In times of heightened national security scholars and activists from the communities under suspicion often attempt to alert the public to the more complex stories behind the headlines But when they raise questions about the government military and police policy these individuals are routinely shut down and accused of being terrorist sympathisers or apologists for gang culture In such environments there is immense pressure to condemn what society at large fears This collection explains how the expectation to condemn has emerged tracking it against the normalisation of racism and explores how writers manage to subvert expectations as part of their commitment to anti racism *Explaining Federalism* Jan Erk,2007-09-12 This book deals with the theoretical and empirical questions of federalism in the context of five case studies Austria Belgium Canada Germany and Switzerland The central argument is that in the long run the political institutions of federalism adapt to achieve congruence with the underlying social structure This change could be in the centralist direction reflecting ethno linguistic homogeneity or in decentralist terms corresponding to ethno linguistic heterogeneity In this context the volume fills a gap in the comparative federalism literature by analyzing the patterns of change and continuity in five federal systems of the industrial west this is done by an in depth empirical examination of the case studies through a single framework of analysis illustrates the shortcomings of new institutionalist approaches in explaining change highlighting the usefulness of society based approaches in studying change and continuity in comparative politics Explaining Federalism will be of interest to students and scholars of federalism comparative government comparative institutional analysis and comparative public policy **One Country, Two Systems, Three Legal Orders - Perspectives of Evolution** Jorge Oliveira,Paulo Cardinal,2009-07-21 One Country Two Systems Three Legal Orders Perspectives of Evolution Essays on Macau s Autonomy after the Resumption of Sovereignty by

China can be said in a short preamble like manner to be a book that provides a comprehensive look at several issues regarding public law that arise from or correlate with the Chinese apex motto for reunification One Country Two Systems and its implementation in Macau and Hong Kong Noble and contemporary themes such as autonomy models and fundamental rights are thoroughly approached with a multilayered analysis encompassing both Western and Chinese views and an extensive comparative law acquis is also brought forward Furthermore relevant issues on international law criminal law and historical and comparative evolutions and interactions of different legal systems are laid down in this panoramic yet comprehensive book One cannot but underline the presence in the many approaches and comments of a certain aura of a modern Kantian cosmopolitanism revisitation throughout the work especially when dealing with the cardinal principle of One Country Two Systems which enabled a peaceful and integral reunification ex vi international law the Joint Declarations that ended an external and distant control

Nationalist Exclusion and Ethnic Conflict Andreas Wimmer, 2002-06-06

Andreas Wimmer argues that nationalist and ethnic politics have shaped modern societies to a far greater extent than has been acknowledged by social scientists The modern state governs in the name of a people defined in ethnic and national terms Democratic participation equality before the law and protection from arbitrary violence were offered only to the ethnic group in a privileged relationship with the emerging nation state Depending on circumstances the dynamics of exclusion took on different forms Where nation building was successful immigrants and ethnic minorities are excluded from full participation they risk being targets of xenophobia and racism In weaker states political closure proceeded along ethnic rather than national lines and leads to corresponding forms of conflict and violence In chapters on Mexico Iraq and Switzerland Wimmer provides extended case studies that support and contextualise this argument
