Gardiner: Folk, Nature and Culture in Interwar Britain Mike Tyldesley, 2016-04-08 Folk dancer, forester, poet and visionary Rolf Gardiner 1902-71 is both a compelling and troubling figure in the history of twentieth-century Britain. While he is celebrated as a pioneer of organic farming and co-founder of the Soil Association, Gardiner's organicist outlook was not confined to agriculture alone. Convinced that a healthy culture and society could only flourish when it was rooted in the soil, Gardiner sought national regeneration too. One of the most colourful and controversial figures of the interwar period, Gardiner believed Britain's future lay not with its doomed empire but in ever closer union with its kin, folk, kin, tongued neighbours in Germany, the Netherlands and Scandinavia. Fascinated by the Weimar Republic's myriad youth leagues and life reform movements, Gardiner became an important conduit between North Sea and Baltic. Yet while an enthusiasm for hiking, nudism, folk dancing and voluntary labour camps must have appeared harmlessly eccentric to many in the 1920s, Britain by the late 1930s Gardiner's continued engagement with Germany was to have altogether darker connotations. This volume, which brings together seven scholars currently working on different aspects of Gardiner's life and work, eschews a straightforwardly biographical approach and instead focuses on the decades when he was at his most dynamic and radical. Situating Gardiner within the wider political and cultural contexts of the interwar years and exploring youth culture, the origins of the organic movement, Anglo-German relations and British cultural history, it is an essential addition to modern history libraries. **The Sword Dances of Northern England** Cecil James Sharp, 1911 *The Routledge Companion to*

English Folk Performance Peter Harrop, Steve Roud, 2021-07-12 This broad based collection of essays is an introduction both to the concerns of contemporary folklore scholarship and to the variety of forms that folk performance has taken throughout English history Combining case studies of specific folk practices with discussion of the various different lenses through which they have been viewed since becoming the subject of concerted study in Victorian times this book builds on the latest work in an ever growing body of contemporary folklore scholarship Many of the contributing scholars are also practicing performers and bring experience and understanding of performance to their analyses and critiques Chapters range across the spectrum of folk song music drama and dance but maintain a focus on the key defining characteristics of folk performance custom and tradition in a full range of performances from carol singing and sword dancing to playground rhymes and mummers plays As well as being an essential reference for folklorists and scholars of traditional performance and local history this is a valuable resource for readers in all disciplines of dance drama song and music whose work coincides with English folk traditions A
