A Sword for Christ Jonathan Cobb, 2021-09-02 The fifteen year period between 1645 and 1660 was one of the most dynamic in British history during which the republican Commonwealth and Cromwellian Protectorate attempted to create a new type of Godly state after the execution of Charles I Drawing on the latest research and established sources as well as the works and diaries of contemporaries such as John Evelyn Lucy Hutchinson and Samuel Pepys *A Sword for Christ* offers a new and stimulating perspective on these extraordinary years Key personalities such as Sir Thomas Fairfax the Marquis of Argyll Charles II and of course Oliver Cromwell himself one of the most contentious figures in history are re appraised and brought vividly to life In addition to exploring the religious and political debates which shaped the era and the military culture which defined it the book also considers how society was profoundly affected by the upheaval caused by the civil wars the relations between what was essentially an English republic and its Irish and Scottish neighbours and the ethos of the New Model Army and the navy

Kingdom, Civitas, and County Stephen Rippon, 2018 This book explores the development of territorial identity in the late prehistoric Roman and early medieval periods Over the course of the Iron Age a series of marked regional variations in material culture and landscape character emerged across eastern England that reflect the development of discrete zones of social and economic interaction The boundaries between these zones appear to have run through sparsely settled areas of the landscape on high ground and corresponded to a series of kingdoms that emerged during the Late Iron Age In eastern England at least these pre Roman socio economic territories appear to have survived throughout the Roman period despite a trend towards cultural homogenization brought about by Romanization Although there is no direct evidence for the relationship between these socio economic zones and the Roman administrative territories

known as civitates they probably corresponded very closely The fifth century saw some Anglo Saxon immigration but whereas in East Anglia these communities spread out across much of the landscape in the Northern Thames Basin they appear to have been restricted to certain coastal and estuarine districts The remaining areas continued to be occupied by a substantial native British population including much of the East Saxon kingdom very little of which appears to have been Saxon By the sixth century a series of regionally distinct identities that can be regarded as separate ethnic groups had developed which corresponded very closely to those that had emerged during the late prehistoric and Roman periods These ancient regional identities survived through to the Viking incursions whereafter they were swept away following the English reconquest and replaced with the counties with which we are familiar today **Swords of the Viking Age** ,2005-09-08

This title surveys some 60 examples of swords made and used in northern Europe during the Viking Age from the mid 8th to the mid 11th century It contains an illustrated overview of blade types and construction pattern welding inscriptions and handle forms and Jan Petersen's classification **The Museum of Foreign Literature, Science, and Art** Robert Walsh, John Jay Smith, 1839 *Journal of the British Archaeological Association* British Archaeological Association, 1848

Britain Begins Barry Cunliffe, 2013 The story of the origins of the British and the Irish peoples from the end of the last Ice Age around 10 000BC to the eve of the Norman Conquest who they were where they came from and how they related to one another **Ritual in Late Bronze Age Ireland** Katherine Leonard, 2015-12-01 This text develops a new perspective on Late Bronze Age LBA Ireland by identifying and analysing patterns of ritual practice in the archaeological record The bookends of this study are the introduction of the bronze slashing sword to Ireland at around 1200 BC and the introduction and proliferation of iron technology beginning around 600 BC *The Wellington and Napoleon Quartet: Young Bloods, The Generals, Fire and Sword, Fields of Death* Simon Scarrow, 2015-05-21 Simon Scarrow's four classic novels based on the lives of the Duke of Wellington and Napoleon Bonaparte are published together in one superb value ebook volume not to be missed by readers of Bernard Cornwell Arthur Duke of Wellington and Emperor Napoleon Bonaparte were adversaries on an epic scale Across Europe and beyond the armies of Great Britain and France clashed from the Iberian Peninsula to India from Austerlitz to the final confrontation at Waterloo What drove the two clever ambitious determined men who masterminded these military campaigns How did the underdog from Corsica develop the strategic military skills and the political cunning that gave him power over swathes of Europe And how did Wellington born to be a leader hone his talents and drive an army to victory after victory From an outstanding historian and novelist come four epic novels now available in one volume for the first time which tell the full story of both these men from their very early days till the momentous battle at Waterloo which decided the future of Europe INCLUDES MAPS *Druid's Sword* Sara Douglass, 2006-05-16 Fantasy roman *Iron Age Communities in Britain* Barry Cunliffe, 2004-08-02 This fully revised fourth edition maintains the qualities of the earlier editions whilst taking into account the significant developments that have moulded the discipline in recent years

Brothers of the Sword Peter Gibbons, 2023-08-02 Peter Gibbons' action-packed historical Saxon Warrior series thunders on not to be missed. An epic battle where heroes fight and die to protect a Kingdom from Viking invasion 991AD. King Aethelred the Unready's Kingdom of the English is threatened. Olaf Trygvason and his fleet of Viking warships snap at the coastal edges like ravenous wolves and Sweyn Forkbeard King of the Danes has landed in East Anglia with an army of battle-hardened warriors. Ealdorman Byrhtnoth of Essex must stand against them, faced with overwhelming odds, forging his legend in the blood of his deadly enemies. By his side, his Thegn Beornoth, a brutal warrior and savage Saxon fighter, is torn between his need to protect his loved ones and his duty to fight for his Lord. As the Vikings raid and slaughter, Beornoth is forced to fight for the survival of his oath-sworn brothers, his Lord, and the Kingdom itself when all roads lead to the fateful Battle of Maldon. Can Beornoth protect his people and survive one of the most famous battles of the Viking Age? A thrilling story packed with war, vengeance, and visceral combat. If you like Bernard Cornwell, Simon Scarrow, Conn Iggulden, and David Gemmell, you will love this epic Saxon adventure. Praise for Peter Gibbons: Outstanding 5 read from an author I'm eager to see more from. Clearly knows what his readers want and knows how to take it to the next level. Reader Review: Epic brutal action, a flawed hero defending his people while fighting his own demons, implacable ruthless invaders, treacherous nobles. Warrior and Protector has them all. Matthew Harffy: Another compelling page-turner that once started is almost impossible to put down. None stop action and some great characters make this another classical book in a superb series. Reader Review: Bloody and brutal, everything you want from a novel about 10th century England. Peter's vivid writing really brings the story to life. Donovan Cook: A superbly atmospheric tale of redemption that pitches the English against Viking raiders and resounds with the fierceness of battle-hardened warriors. MJ Porter: Thunderously atmospheric. Gibbons once again proves himself a master of Viking Dark Age lore. Gordon Doherty: Another masterpiece. I truly love reading his books that are as engaging and captivating as Bernard Cornwell's. Thoroughly recommend his books and I cannot wait for more. Reader Review: This series is brilliant. I've enjoyed reading the latest adventures of Beornoth and learning yet more history. The author really does bring it all to life with his wonderful story telling. Reader Review: What a book of excellent storytelling. I could not put the book down. Carry on with this theme and you will not be disappointed. Reader Review: Globalism in the Middle Ages and the Early Modern Age Albrecht Classen, 2023-09-05 Although it is fashionable among modernists to claim that globalism emerged only since ca 1800, the opposite can well be documented through careful comparative and transdisciplinary studies as this volume demonstrates, offering a wide range of innovative perspectives on often neglected literary, philosophical, historical, or medical documents. Texts, images, ideas, knowledge, and objects migrated throughout the world already in the pre-modern world, even if the quantitative level compared to the modern world might have been different. In fact, by means of translations and trade, for instance, global connections were established and maintained over the centuries. Archetypal motifs developed in many literatures indicate how much pre-modern people actually shared. But we also discover hard-core facts of global economic

exchange import of exotic medicine and on another level intensive intellectual debates on religious issues Literary evidence serves best to expose the extent to which contacts with people in foreign countries were imaginable often desirable and at times feared of course The pre modern world was much more on the move and reached out to distant lands out of curiosity economic interests and political and military concerns Diplomats crisscrossed the continents and artists poets and craftsmen traveled widely We can identify for instance both the Vikings and the Arabs as global players long before the rise of modern globalism so this volume promises to rewrite many of our traditional notions about pre modern worldviews economic conditions and the literary sharing on a global level as perhaps best expressed by the genre of the fable *Belgravia* ,1878

Belgravia, a London magazine, conducted by M.E. Braddon Belgravia,1878 **Belgravia** Mary Elizabeth Braddon,1878 *Warfare in Northern Europe Before the Romans* Julie Wileman,2014-03-31 This book traces the developments in the defences weaponry and armour of the northern barbarians from the earliest traces of stone age aggression to the sophisticated warfare of the tribes who met the Romans in battle It uses evidence from monuments such as the great hillforts of the Bronze and Iron Ages including Maiden Castle in Dorset and Alesia in France as well as the amazing archaeological finds seen in museums and collections across northern Europe Period by period the ways in which the peoples of Britain Ireland France Germany the Netherlands Belgium and Scandinavia developed defensive and offensive strategies are brought together for those interested in both military history and in the development of our societies and countryside Evidence from many countries is used to shed light on the centuries before written records and to redress the balance of our understanding which has often been too heavily influenced by Roman propaganda As featured in Essence Magazine
