s careful curation of Plath's work extended to a Collected Poems and a Selected Poems in the 1980s which remain in print today and stand testimony to the profound respect that Frieda Hughes said her father had for her mother's work. It was not until the publication of a restored Ariel in 2004 that readers were able to appraise Plath's own selection and arrangement of her work. This edition of the poems chosen by the Poet Laureate Carol Ann Duffy offers a fresh selection of Sylvia Plath's poetry to stand in parallel to the existing editions. Introduced with an inviting preface, the book is essential reading for those new to and already familiar with the work of this most extraordinary poet. *Twice-Told Children's Tales* Betty

Greenway, 2013-09-13 It is only in childhood that books have any deep influence on our lives. Graham Greene: The luminous books of our childhood will remain the luminous books of our lives. Joyce Carol Oates: Writers as they often attest are deeply influenced by their childhood reading. Salman Rushdie for example has said that *The Wizard of Oz* made a writer of me. *Twice-Told Tales* is a collection of essays on the way the works of adult writers have been influenced by their childhood reading. This fascinating volume includes theoretical essays on Salman Rushdie and the *Oz* books, *Beauty and the Beast* retold as *Jane Eyre*, the childhood reading of Jorge Luis Borges and the remnants of nursery rhymes in Sylvia Plath's poetry. It is supplemented with a number of brief commentaries on children's books by major creative writers including Maxine Hong

Kingston and Maxine Kumin. **Out of the Cradle Endlessly Rocking** Nephie Christodoulides, 2021-11-15 *Out of the Cradle Endlessly Rocking* delves deeply into the notion of motherhood in Sylvia Plath's work in order to redeem Plath from the one-dimensional role assigned to her of the suicidal father-obsessed poet. Written from the theoretical perspective of Julia Kristeva's theory of subject formation, the book focuses on Plath's baby poems in which mother figures are seen as subjects in process, oscillating between authentication and non-authentication in motherhood. Furthermore, since the mother is always a daughter, part of the discussion centers on Plath's daughterhood poetry in which daughter figures are engaged in an endless struggle to release themselves from a suffocating maternal hold and achieve their own linguistic individuation. Finally, Plath's works for children, *The Bed Book*, *The It Doesn't Matter Suit*, *Mrs. Cherry's Kitchen*, as well as her fairy tale poems largely ignored until now, are read as manifestations of the self's regressive journey to once below a time to grasp an elusive pre-symbolic organization and take signification back to infancy. The book makes extensive use of Plath's drafts, mainly of the Ariel poems, her recycled materials, annotated books from her personal library, published and unpublished material from The Lilly Library Archive, The Mortimer Rare Book Room, and The Ted Hughes Archive in Emory. **Scheherazade's Children**

Philip F. Kennedy, Marina Warner, 2013-11-08 *Scheherazade's Children* gathers together leading scholars to explore the reverberations of the tales of the Arabian Nights across a startlingly wide and transnational range of cultural endeavors. The contributors, drawn from a wide array of disciplines, extend their inquiries into the book's metamorphoses on stage and screen as well as in literature, from India to Japan, from Sanskrit mythology to British pantomime, from Baroque opera to puppet shows. Their highly original research illuminates little-known manifestations of the Nights and provides unexpected

contexts for understanding the book's complex history. Polemical issues are thereby given unprecedented and enlightening interpretations. Organized under the rubrics of Translating, Engaging and Staging, these essays view the Nights corpus as a uniquely accretive cultural bundle that absorbs the works upon which it has exerted influence. In this view, the Arabian Nights is a dynamic living and breathing cross-cultural phenomenon that has left its mark on fields as disparate as the European novel and early Indian cinema. While scholarly, the writers' approach is also lively and entertaining, and the book is richly illustrated with unusual materials to deliver a sparkling and highly original exploration of the Arabian Nights radiating influence on world literature, performance and culture.

Burning the Books Richard Ovenden, 2020-11-17. A Wolfson History Prize Finalist. A New Statesman Book of the Year. A Sunday Times Book of the Year. Timely and authoritative. I enjoyed it immensely. Philip Pullman: If you care about books and if you believe we must all stand up to the destruction of knowledge and cultural heritage, this is a brilliant read, both powerful and prescient. Elif Shafak: Libraries have been attacked since ancient times, but they have been especially threatened in the modern era through war as well as willful neglect. *Burning the Books* describes the deliberate destruction of the knowledge safeguarded in libraries from Alexandria to Sarajevo, from smashed Assyrian tablets to the torching of the Library of Congress. The director of the world-famous Bodleian Libraries, Richard Ovenden, captures the political, religious and cultural motivations behind these acts. He also shines a light on the librarians and archivists preserving history and memory, often risking their lives in the process. More than simply repositories for knowledge, libraries support the rule of law and inspire and inform citizens. Ovenden reminds us of their social and political importance, challenging us to protect and support these essential institutions. Wonderful, full of good stories and burning with passion. Sunday Times: The sound of a warning vibrates through this book. The Guardian: Essential reading for anyone concerned with libraries and what Ovenden outlines as their role in the support of democracy, the rule of law and open society. Wall Street Journal: Ovenden emphasizes that attacks on books, archives and recorded information are the usual practice of authoritarian regimes. Michael Dirda, Washington Post: Therapy with Children Chris Scalzo, 2018-03-26. This book explores the existential themes and challenges present in all therapeutic relationships when working with children. Existential ideas and concepts are a rapidly growing influence on the practice of psychotherapy, and yet their application to work with children remains largely unexplored. This book begins to redress this imbalance in a practical and engaging way by presenting an existential perspective on some key themes in practicing psychotherapy with children, including play, anxiety, guilt, choice, family relationships, language and process. Each chapter is punctuated with engaging vignettes of case material, blending theoretical insight with the realities of practice. Through these narratives, readers are challenged to question their own assumptions and beliefs, whether they are new to existential psychotherapy or already immersed in its rich philosophical traditions. Children are born into the world without choice and are drawn towards making connections with others, developing self-awareness and personal identity.

The Voice of Nature in Ted Hughes's Writing for Children Lorraine

Kerslake,2018-06-12 Despite the fame Ted Hughes's poetry has achieved there has been surprisingly little critical writing on his children's literature. This book identifies the importance of Hughes's children's writing from an ecocritical perspective and argues that the healing function that Hughes ascribes to nature in his children's literature is closely linked to the development of his own sense of environmental responsibility. This book will be the first sustained examination of Hughes's greening in relation to his writing for children providing a detailed reading of Hughes's children's literature through his poetry, prose and drama as well as his critical essays and letters. In addition it also explores how Hughes's children's writing is a window to the poet's own emotional struggles as well as his environmental consciousness and concern to reconnect a society that has become alienated from nature. This book will be of great interest to not only those studying Ted Hughes but also students and scholars of environment and literature, ecocriticism, children's literature and twentieth century literature.

Fathers and Children Ivan Turgenev,1991-10-15 One of the greatest of the classic Russian novels, this universal tale of generational conflict is set at a moment of historic social upheaval just before the emancipation of the serfs in 1861. When Arkady Kirsanov returns home from university, his father and uncle find to their bafflement and dismay that the naive and impressionable young man has come under the sway of the charismatic new friend he brings with him. A fervent nihilist, Yevgeny Bazarov passionately rejects traditional values and authority and wants to overturn the oppressive landowning system that supports Russian society and his own parents. As Bazarov provokes the disapproval of his elders, falls unsuccessfully in love and fights a duel, he moves like a storm cloud through this sensuous, dramatically paced account of Russia on the brink of change. Ivan Turgenev's greatest fictional character is as compelling and as enigmatic as the country whose turmoil he so vividly represents. Introduction by John Bayley. Translation by Avril Pyman.

Opening Doors to Quality Writing Bob Cox,2016-08-08 In the course of his educational consultancy work, Bob has seen many teachers successfully use the scope and depth which literature can offer to inspire high standards, mastery learning and, above all, a love of language in its many forms. Schools using the opening doors strategies told Bob they led to more teacher empowerment and confidence, more knowledge building for pupils and teachers, a growing confidence with literature including poetry. Planning from the top becoming a norm. Planning for mastery learning becoming a norm. Improved comprehension skills. Improved quality writing and associated excitement. They also asked Bob for further examples of inspiring quality texts and more ways in which all abilities can access them. Bob was only too happy to oblige. These 15 units of work cover poetry and prose; each unit provides exciting stimulus material, creative ideas for writing projects and differentiation and support strategies meaning all pupils can achieve the quality writing objectives. All the units should help teachers facilitate understanding of the challenging texts and maximise the huge potential for quality writing.
