## Symbolist Movement In Literature 1st Edition:

The Symbolist Movement in the Literature of European Languages Anna Balakian, Anna Elizabeth Balakian, 1984 Edited by Anna Balakian this volume marks the first attempt to discuss Symbolism in a full range of the literatures written in the European languages The scope of these analyses which explore Latin America Scandinavia Russia Poland Hungary Serbia Czechoslovakia and Bulgaria as well as West European literatures continues to make the volume a valuable reference today As Ren Wellek suggests in his historiographic contribution the fifty one contributors not only make us think afresh about individual authors who are giants but also draw us to reassess schools and movements in their local as well as international contexts Reviewers comment that this copious and intelligently structured anthology divided into eight parts traces the conceptual bases and emergence of an international Symbolist movement showing the spread of Symbolism to other national literatures from French sources as well as the symbiotic transformations of Symbolism through appropriation and amalgamation with local literary trends Several chapters deal with the relationships between literature and the other arts pointing to Symbolism at work in painting music and theatre Other chapters on the psychological aspects of the Symbolist method connect in interesting ways to a vision of metaphor and myth as virtually musical notation and an experimental emphasis on the play afforded by gaps between words The volume is a major contribution to the most significant exponents and essential themes of Symbolism The theoretical historical and typological sections of the volume help explain why the impact of this important movement of the fin de siècle is still felt today     Arthur Symons John Murchison Munro, 1969

*The Publishers' Circular and Booksellers' Record*, 1924     **Musical Symbolism in the Operas of Debussy and Bartok** Elliot Antokoletz, 2004-07-22 Musical Symbolism in the Operas of Debussy and Bartok explores the means by which two early 20th century operas Debussy's *Pelléas et Mélisande* 1902 and Bartok's *Duke Bluebeard's Castle* 1911 transformed the harmonic structures of the traditional major minor scale system into a new musical language It also looks at how this language reflects the psychodramatic symbolism of the Franco-Belgian poet Maurice Maeterlinck and his Hungarian disciple Béla Balázs These two operas represent the first significant attempts to establish more profound correspondences between the symbolist dramatic conception and the new musical language *Duke Bluebeard's Castle* is based almost exclusively on interactions between pentatonic diatonic folk modalities and their more abstract symmetrical transformations including whole tone octatonic and other pitch constructions derived from the system of the interval cycles The opposition of these two harmonic extremes serve as the basis for dramatic polarity between the characters as real life beings and as instruments of fate The book also explores the new musical dramatic relations within their larger historical social psychological philosophical and aesthetic contexts     **Publishers' Circular and Booksellers' Record of British and Foreign Literature**, 1908

**The Bookman**, 1899     **The Symbolist Movement in Literature** Arthur Symons, 2014-03 This Is A New Release Of The Original 1919 Edition     The Nation, 1919     □□□□□□, 1967     **Symbolism, Its Origins and Its Consequences**

Rosina Neginsky,2010-08-11 The notion of the symbol is at the root of the Symbolist movement but this symbol is different from the way it was used and understood in the Middle Ages and Renaissance In the Symbolist movement a symbol is not an allegory The Belgian writer Maurice Maeterlinck defined its essence in an article that appeared on April 24 1887 in *L'Art moderne* He wrote that the notion of a symbol in the Symbolist movement is the opposite of the notion of the symbol in classical usage instead of going from the abstract to the concrete Venus incarnated in the statue represents love it goes from the concrete to the abstract from what is seen heard felt tasted and sensed to the evocation of the idea This volume attempts to give a glimpse into the power of the Symbolist movement and the nature of its fundamental and interdisciplinary role in the evolution of art and literature of the twentieth century It records the studies of a group of scholars who met and discussed these topics together for the first time in 2009 While illuminating the specificity of Symbolism in art architecture and literature in different European countries these articles also demonstrate the crucial role of French Symbolism in the development of the international Symbolist movement The authors hope that an expanding group a society of Art Literature and Music in Symbolism and Decadence ALMSD born out of the first meeting will continue to further this discussion at future conferences and in the printed conference proceedings

Rodin Claudine Mitchell,2017-07-05 The expression the Zola of Sculpture was coined in the circles of the Royal Academy in the 1880s as a term of abuse Rodin The Zola of Sculpture reveals how the appraisal of Rodin in British culture was shaped by controversies around the literary models of Zola and Baudelaire in a period when negative notions about French culture were being progressively transformed into positive expressions of modern sculpture Embedded within this collaborative book is the editor's proposition that Rodin came to play an important role in the cultural politics of the Entente Cordiale at a critical juncture of European history Encompassing new scholarship in several disciplines drawn from both sides of the Channel Rodin The Zola of Sculpture offers the first in depth account of Rodin's career in Britain in the period 1880 1914 and weaves this historical trajectory into a complex investigation of the interactions between French and British cultures The authors examine the cultural agencies in which conceptions of Rodin's practice played a defining role dealing in turn with artists professional associations art criticism private and public collectors and the education of women sculptors

*Symbolism* Charles Chadwick,2017-07-06 First published in 1971 this work provides a helpful introduction to the French Symbolism movement After an introduction to the defining ideas of the movement it explores five key Symbolist writers Baudelaire Verlaine Rimbaud Mallarmé and Valéry The book concludes with a discussion of the impact of Symbolism across Europe This book will be of interest to those studying nineteenth century French literature
