Islam, Securitization, and US Foreign Policy Erdoan A. Shipoli, 2018-05-08

This book argues that Islam has been securitized in US foreign policy especially during the W Bush administration when it was increasingly portrayed as the ultimate other This securitization was realized through the association of Islam with unique security threats in speeches of foreign policy and national security By analyzing the four recent US presidents discourses on Islam this work sheds light on how they viewed Islam and addresses the following questions How do we talk about Islam its place and relationship within the context of US security How does the language we use to describe Islam influence the way we imagine it How is Islam constructed as a security issue Symbols Of Islam Tanja Al Hariri-Wendel, **Islam and Good Governance** M. A. Muqtedar Khan, 2019-04-08 This book advances an Islamic political philosophy based on the concept of Ihsan which means to do beautiful things The author moves beyond the dominant model of Islamic governance advanced by modern day Islamists The political philosophy of Ihsan privileges process over structure deeds over identity love over law and mercy and forgiveness over retribution The work invites Muslims to move away from thinking about the form of Islamic government and to strive to create a self critical society that defends national virtue and generates institutions and practices that provide good governance Symbolism in Terrorism Jonathan Matusitz, 2014-09-16 The symbolic value of targets is what differentiates terrorism from other forms of extreme violence Terrorism is designed to inflict deep psychological wounds on an enemy rather than demolish its material ability to fight The September 11 2001 attacks for example demonstrated the power of symbolism The World Trade Center was targeted by Al Qaeda because the Twin Towers epitomized Western civilization U S imperialism financial success modernity and freedom The symbolic character of terrorism is the focus of this textbook A comprehensive analysis it incorporates descriptions definitions case studies and theories Each chapter focuses on a specific dimension of symbolism in terrorism and explains the contexts and processes that involve the main actors as well as the symbolism of both the purposes and targets of terrorism Also discussed are new religious movements which represent another important aspect of terrorism such as Aum Shinrikyo the Japanese cult that used sarin gas in the Tokyo subway in 1995 Over forty areas of symbolism are covered throughout the chapters including physical and non physical symbolism linguistic symbolism the social construction of reality rituals myths performative violence iconoclasm brand management logos semiotics new media and the global village This allows for an in depth examination of many issues such as anti globalization honor killing religious terrorism suicide terrorism martyrdom weapons female terrorism public communication visual motifs and cyberspace Main concepts are clearly defined and followed by theory illustrated by international case studies Chapter summaries key points review questions research and practice suggestions are recurring components as well This groundbreaking text encompasses all major aspects of symbolism in terrorism and will be an essential resource for anyone studying terrorism Islamic Revival in Nepal Megan Adamson Sijapati, 2012-03-29 Drawing on extensive fieldwork among Muslims in contemporary Nepal this book examines the local and global factors shaping an emerging Islamic revival in a Hindu majority region of South Asia It traces the ways that Nepal s

Muslims have become active participants in the larger global movement of Sunni revivalism and Nepal's own local politics of representation in the context of political transition to democracy and secularism State, Nationalism, and Islamization Raja M. Ali Saleem, 2017-07-11 This book argues that Islam's role in state nationalism is the best predictor of the Islamization of government using two most different cases Turkey which was an aggressively secular country until recently and Pakistan a country that is synonymous with Islamization It establishes a causal link between Islam's role in state nationalism and Islamization of government during various periods of the history of both countries The indicators used to establish the causal link between Islam's role in state nationalism and Islamization are the presence of Islamic provisions in the constitution Islam inspired national symbols Islamic images on the national currency Islamic basis of family law a Department of Religious Affairs and governmental support for religious education The book concludes by identifying three causal mechanisms legitimacy mobilization and authenticity that link Islam's role in state nationalism and the Islamization of government
