## **Symbols Of Transcendence Religious Expression In The Thought Of Louis Dupre:**

**Symbols of Transcendence** Paul J. Levesque, 1997 Volume 22 in the LTPM series offers a synchronic investigation of the thought of Christian philosopher Louis Dupre Working from a careful reading of Dupre's vast body of writings Paul Levesque demonstrates that in Dupre's work all religious expression insofar as it has a transcendent reference is intrinsically symbolic In the course of his study Levesque discusses the general necessity of employing symbols for religious expression investigates in depth Dupre's symbol theory and applies it to the religious symbols of ritual sacraments and religious art examines the modern inability to fully form religious symbols and explores Dupre's particular call to recover the mystical experience in personal life

**Catholic Theology After Kierkegaard** Joshua Furnal, 2016 Although he is not always recognized as such Soren Kierkegaard has been an important ally for Catholic theologians in the early twentieth century Moreover understanding this relationship and its origins offers valuable resources and insights to contemporary Catholic theology Of course there are some negative preconceptions to overcome Historically some Catholic readers have been suspicious of Kierkegaard viewing him as an irrational Protestant irreconcilably at odds with Catholic thought Nevertheless the favorable mention of Kierkegaard in John Paul II's *Fides et Ratio* is an indication that Kierkegaard's writings are not so easily dismissed Catholic Theology after Kierkegaard investigates the writings of emblematic Catholic thinkers in the twentieth century to assess their substantial engagement with Kierkegaard's writings Joshua Furnal argues that Kierkegaard's writings have stimulated reform and renewal in twentieth century Catholic theology and should continue to do so today To demonstrate Kierkegaard's relevance in pre-conciliar Catholic theology Furnal examines the wider evidence of a Catholic reception of Kierkegaard in the early twentieth century looking specifically at influential figures like Theodor Haecker Romano Guardini Erich Przywara and other Roman Catholic thinkers that are typically associated with the ressourcement movement In particular Furnal focuses upon the writings of Henri de Lubac Hans Urs von Balthasar and the Italian Thomist Cornelio Fabro as representative entry points

**Dictionary Of Modern American Philosophers** John R. Shook, 2005-05-15 The Dictionary of Modern American Philosophers includes both academic and non-academic philosophers and a large number of female and minority thinkers whose work has been neglected It includes those intellectuals involved in the development of psychology pedagogy sociology anthropology education theology political science and several other fields before these disciplines came to be considered distinct from philosophy in the late nineteenth century Each entry contains a short biography of the writer an exposition and analysis of his or her doctrines and ideas a bibliography of writings and suggestions for further reading While all the major post-Civil War philosophers are present the most valuable feature of this dictionary is its coverage of a huge range of less well-known writers including hundreds of presently obscure thinkers In many cases the Dictionary of Modern American Philosophers offers the first scholarly treatment of the life and work of certain writers This book will be an indispensable reference work for scholars working on almost any aspect of modern
