**Power Media Selects** Broadcast Interview Source,1998-02 **Becoming America's Playground** Larry D. Gragg,2019-08-29 In 1950 Las Vegas saw a million tourists In 1960 it attracted ten million The city entered the fifties as a

regional destination where prosperous postwar Americans could enjoy vices largely forbidden elsewhere and it emerged in the sixties as a national hotspot the glitzy resort city that lights up the American West today *Becoming America's Playground* chronicles the vice and the toil that gave Las Vegas its worldwide reputation in those transformative years Las Vegas's rise was no happy accident After World War II vacationing Americans traveled the country in record numbers making tourism a top industry in such states as California and Florida The Las Vegas Chamber of Commerce saw its chance and developed a plan to capitalize on the town's burgeoning reputation for leisure Las Vegas pinned its hopes for the future on Americans need for escape Transforming a vice city financed largely by the mob into a family vacation spot was not easy Hotel and casino publicists closely monitored media representations of the city and took every opportunity to stage images of good clean fun for the public posing even the atomic bomb tests conducted just miles away as an attraction The racism and sexism common in the rest of the nation in the era prevailed in Las Vegas too The wild success of Frank Sinatra's Rat Pack performances at the Sands Hotel in 1960 demonstrated the city's slow progress toward equality Women couldn't work as dealers in Las Vegas until the 1970s yet they found more opportunities for well paying jobs there than many American women could find elsewhere Gragg shows how a place like the Las Vegas Strip with its glitz and vast wealth and its wildly public consumption of vice rose to prominence in the 1950s a decade of Cold War anxiety and civil rights conflict *Becoming America's Playground* brings this pivotal decade in Las Vegas into sharp focus for the first time

**She Said What?** Maria Braden, 2021-11-21 No longer relegated to reporting on society happenings or household hints women columnists have over the past twenty years surged across the boundary separating the women's or lifestyle sections and into the formerly male bastions of the editorial financial medical and op ed pages Where men previously controlled the nation's new organizations were the chief opinion givers and defined what is newsworthy many women newspaper columnists are now nationally syndicated and tackle the same subjects as their male counterparts bringing with them distinctive styles and viewpoints Through these frank and lively interviews Maria Braden explores the lives and work of columnists Erma Bombeck Jane Brody Mona Charen Merlene Davis Georgie Anne Geyer Dorothy Gilliam Ellen Goodman Molly Ivins Mary McGrory Judith Miss Manners Martin Joyce Maynard Anna Quindlen and Jane Bryant Quinn Profiles describe how these writers got started where they get the nerve to tell the world what they think how they generate ideas for columns and what it's like to create under the pressure of deadlines Representative columns illustrate their distinctive voices and an introductory essay provides a historical overview of women in journalism including pioneering women columnists Fanny Fern Dorothy Thompson and Sylvia Porter Braden finds that today's women columnists frequently raise issues or use examples unique to their gender Because they are likely to have a direct personal connection to current social issues such as abortion child care or sexual harassment they are able to provide fresh perspectives on these provocative topics In doing so they are helping to define what is worthy of attention in the 90s and to shape public response A unique addition to the literature on women in

journalism this book will interest general readers as well as students of journalism literature American studies and women s studies Aspiring writers will find here role models and practical guidance      Strategic Communications for Nonprofits Kathy Bonk,Emily Tynes,Henry Griggs,Phil Sparks,2008-09-17 This is a new edition of Strategic Communications for Nonprofits which was first published in 1999 It is an up dated nuts and bolts guide to helping nonprofits design and implement successful communications strategies The book offers a unique combination of step by step guidance on effective media relations and assistance in constructing and developing an overall communications strategy aimed at creating social or policy change It first explains the basic principles of a strategic communications strategy that will define the target audiences you need to reach and tells how to develop the messages and messengers you use to reach them The book then goes on to address specific issues like earning good media coverage building partnerships to increase available resources handling a crisis and more This second edition builds on the earlier work and includes new case studies new trends in media and branding ethnic media issues and trends in technology      **The 1930s** William H. Young,2002-10-30 Most historical studies bury us in wars and politics paying scant attention to the everyday effects of pop culture Welcome to America s other history the arts activities common items and popular opinions that profoundly impacted our national way of life The twelve narrative chapters in this volume provide a textured look at everyday life youth and the many different sides of American culture during the 1930s Additional resources include a cost comparison of common goods and services a timeline of important events notes arranged by chapter an extensive bibliography for further reading and a subject index The dark cloud of the Depression shadowed most Americans lives during the 1930s Books movies songs and stories of the 1930s gave Americans something to hope for by depicting a world of luxury and money Major figures of the age included Fred Astaire and Ginger Rogers Irving Berlin Amelia Earhart Duke Ellington the Marx Brothers Margaret Mitchell Cole Porter Joe Louis Babe Ruth Shirley Temple and Frank Lloyd Wright Innovations in technology and travel hinted at a Utopian society just off the horizon group sports and activities gave the unemployed masses ways to spend their days and a powerful new demographic the American teenager suddenly found itself courted by advertisers and entertainers      *Portraying the President* Michael Grossman,Martha Joynt Kumar,1981-02-01 The media have become principal actors on the American political scene Politicians and their press secretaries release news items with one eye on the event and the other on the millions of voters who depend on the White House press corps to keep them informed about the workings of their government Portraying the President explores the inner workings of the relationship between the White House and the press Rather than emphasize the well publicized sparring between inquisitive reporters and evasive administrative spokesmen intent on enhancing the President s public image the authors stress the vast amount of cooperation between journalists and their sources They point out the similarities of the White House media relationship in recent administrations and suggest what shape it is likely to take in the future The authors also address the key issues of information management and manipulation by both the

administration and the press Grossman and Kumar demonstrate that whether a lower level staff member leaks a news item to elevate his own status or an official spokesman mentions a new policy proposal in order to gather support the release of information to the White House press corps involves complicated strategies among a number of administrative personnel Washington reporters aware of some of these tactics compensate by cultivating personal sources and trading information with officials Nevertheless the routine nature of White House reporting and the competitiveness of modern news organizations often trap the reporter into what has been called pack journalism Interviews with current and former White House reporters including Bob Schieffer Tom Brokaw James Naughton James Reston and John Osborne give Portraying the President an authentic firsthand sound and feel Comments from Ron Nessen Gerald Rafshoon Jody Powell and other presidential spokesmen and advisors give insight into White House operations during the Nixon Ford and Carter administrations Portraying the President provides information vital to an appreciation of the modern American political system Its thought provoking conclusions will be of interest political scientists media specialists and anyone interested in current affairs
