T. Stace, 2018-03-10 It is natural that at the commencement of any study one should be expected to say what the subject matter of that study is Botany is the knowledge of plants astronomy of the heavenly bodies geology of the rocks of the earth's crust What then is the special sphere of philosophy What is philosophy about Now it is not as easy to give a concise definition of philosophy as it is of the other sciences In the first place the content of philosophy has differed considerably in different periods of history In general the tendency has been to narrow down the scope of the subject as knowledge advanced to exclude from philosophy what was formerly included in it Thus in the time of Plato physics and astronomy were included as parts of philosophy whereas now they constitute separate sciences This however is not an insurmountable difficulty What chiefly militates against the effort to

frame a definition is that the precise content of philosophy is differently viewed by different schools of thought *The Prophetic History of the Christian Religion Explained; Or A Brief Exposition of the Revelation of St. John*; John George Schmucker, 1821 **A Philosophical History of German Sociology** Frédéric Vandenberghe, 2008-09-25 A Philosophical History of German Sociology presents a systematic reconstruction of critical theory from the founding fathers of sociology Marx Simmel Weber via Luk cs to the Frankfurt School Horkheimer Adorno Habermas Through an in depth analysis of the theories of alienation rationalisation and reification it investigates the metatheoretical presuppositions of a critical theory of the present that not only highlights the reality of domination but is also able to highlight the possibilities of emancipation Although not written as a textbook its clear and cogent introduction to some of the main theories of sociology make this book a valuable resource for undergraduates and postgraduates alike The following in depth investigation of theories of alienation and reification offer essential material for any critique of the dehumanizing tendencies of today s global world Recently translated into English from the original French for the first time this text showcases Vandenberghe s mastery of the German French and English schools of sociology study The result is an important and challenging text that is essential reading for sociology students of all levels Fr d ric Vandenberghe is a Sociology professor and researcher at Iuperj Instituto Universit rio de Pesquisas do Rio de Janeiro Rio de Janeiro Brazil His writings on a broad range of sociological topics have been published as books and articles around the world
