Enochian Magic and the Higher Worlds John DeSalvo, 2015-03-16 A step by step guide to the rituals of Enochian magic for reaching the higher spiritual realms. Reveals missing practical instructions for the Enochian magic system received by John Dee and Edward Kelley. Explains that the angelic realm is only the first and farthest away of the spiritual realms surrounding God. Shows how to connect with the higher worlds beyond the angels to tap more fully in to the magical power of the Divine. In this comprehensive introduction to Enochian magic and beyond, John DeSalvo explains how the magic system transmitted by the angels to John Dee and Edward Kelley in the 16th century has until now remained incomplete and thus not as powerful as the angels intended. Drawing on his in-depth study of John Dee's diaries, DeSalvo explains how Dee and Kelley were given the Enochian tables and calls, but their communications with the angels were severed before they received the full practical instructions for Enochian magic. To this day, most magical groups improvise and make up rituals based on their own ideas and imagination; the magic they practice is not true angelic magic. After many successful Enochian magic rituals and years of his own spiritual work, DeSalvo has discovered additional key pieces to the magical system of Dee and Kelley, a system now known as Power Magic. He provides step by step instructions for more complete and accurate Enochian magic rituals and reveals how the angelic realm is only the first and farthest away of the spiritual realms surrounding God. He explains how to penetrate this angelic realm with Power Magic to reach higher spiritual worlds and receive more powerful knowledge and energy. He shows that by connecting with the higher worlds beyond the angels, we can tap more fully in to the magical power of the Divine and begin restoring the planetary magic of our most ancient ancestors.

The Bubble Universe: Psychological Perspectives on Reality Eugene Subbotsky, 2020-07-28 This book examines the role that human subjective experience plays in the creation of reality and introduces a new concept, the Bubble Universe, to describe the universe as it looks from the subjective viewpoint of an individual. Drawing on a range of research, the author questions the extent to which the scientific study of the origins of life, consciousness, and subjective experience is itself influenced by scientists' subjective worlds. The author argues that in many respects, the Bubble Universe differs from the universe as described by science and religion and analyzes these differences. The fabric and structure of subjective reality is described, and various aspects of the Bubble Universe are examined, including science, religion, life, morality, and history. The differences between the views from inside the subjective universe and from scientific, religious, and sociocultural versions of the universe are outlined, and their significance for practical and theoretical problems are
