The Mythic Imagination Your Quest For Meaning Through Personal Mythology:

The Mythic Imagination Stephen Larsen, 1990 *The Mythic Imagination* Stephen Larsen, 1996-03-01 Mythology is the universal tongue of human imagination As a tool for self discovery mythology is also a way of gaining access to the secrets of the psyche The Mythic Imagination is a quest for the ancient source of vision and meaning in the world of dream myth and archetype In the footsteps of Joseph Campbell Stephen Larsen guides the reader on a journey through the mythic landscape of the psyche His insight is that all of us at one time or another are engaged in creating personal mythologies that reflect the larger myths of the culture and our own deepest desires and aspirations This book is a guide for bringing the deeper mythic structures of experience into awareness for learning to recognize the archetypal content embedded in our dreams and daydreams feelings beliefs relationships conscious creations and behavior Student and authorized biographer of Joseph Campbell Larsen teaches us how to bring myth into our lives Reissue of the Bantam bestseller The Wisdom of Storytelling in an Information Age Amy E. Spaulding, 2004 Contemporary storytelling provides a welcome refuge for those seeking the antidote to the increasingly impersonal experiences of the technology age Bare data and facts don't always have the ability to inspire or teach but storytelling if effective will always touch its audience Spaulding has compiled and provided written analysis for a series of talks covering subjects all relating to the importance of storytelling here and now in the Age of Information She campaigns for the Virtual Reality of the Mind and discusses the Story as Social Glue driving home the point that the word is mightier than the word processor The Mouse and the Myth Dorene Koehler, 2017-04-24 Upholds a Disney vacation as a religious experience offers insightful arguments relating to the nature of play as well as Nietzschean philosophy Reading Religion Rituals mark significant moments in our lives perhaps none more significant than moments of lightheartedness joy and play Rituals of play are among the most sacred of any of the rites in which humanity may engage Although we may fail to recognize them they are always present in culture providing a kind of psychological release for their participants child and adult alike Disneyland is an example of the kind of container necessary for the construction of rituals of play This work explores the original Disney theme park in Anaheim as a temple cult It challenges the disciplines of mythological studies religious studies film studies and depth psychology to broaden traditional definitions of the kind of cultural apparatus that constitute temple culture and ritual It does so by suggesting that Hollywood's entertainment industry has developed a platform for mythic ritual After setting the ritualized stage this book turns to the practices in Disneyland proper analyzing the patron's traditions within the framework of the park and beyond It explores Disneyland's spectacles through selected shows and parades and concludes with an exploration of the park's participation in ritual renewal There is much to commend in Koehler's study Surely her work should encourage others to examine myth construction and sacred secular rituals in popular culture H Celebration *The Handbook of Humanistic Psychology* Kirk J. Schneider, James F. T. Bugental, J. Fraser Pierson, 2001 A cornucopia of valuable historical theoretical and practical information for the humanistic

psychologist Irvin Yalom Emeritus Professor of Psychiatry Stanford University The editors represent both the founding generation and contemporary leadership and the contributors they have enlisted include most of the active voices in the humanistic movement I know of no better source for either insiders or outsiders to grasp what humanistic psychology is about and what either insiders or outsiders should do about it M Brewster Smith University of California at Santa Cruz As a humanist it offered me a breadth I had not known existed as a researcher it offered me an excellent statement of in depth research procedures to get closer to human experience as a practitioner it offered me inspiration For all those who work with and explore human experience you can not afford to miss the voice of the third force so excellently conveyed in this comprehensive coverage of its unique view of human possibility and how to harness it Leslie S Greenberg York University Inspired by James F T Bugental s classic Challenges of Humanistic Psychology 1967 The Handbook of Humanistic Psychology represents the latest scholarship in the resurgent field of humanistic psychology and psychotherapy Set against trends toward psychological standardization and medicalization the Handbook provides a rich tapestry of reflection by the leading person centered scholars of our time Their range of topics is far reaching from the historical theoretical and methodological to the spiritual psychotherapeutic and multicultural Psychology is poised for a renaissance and this Handbook will play a critical role in that transformation As increasing numbers of students and professionals rebel against mechanizing trends they are looking for the fuller deeper and more personal psychological orientation that this Handbook promotes The Absence of Myth Sophia Heller,2012-02-01 In this provocative work Sophia Heller challenges the assumption that we cannot be without myth that myth is necessary to vital soulful living Indeed Heller argues we have been living in a world without myth for a long time The Absence of Myth examines the loss of a religious mode of being in the world and demonstrates how theorists who insist on the presence of myth deny its historical end Absence of myth may seem obvious evidenced by our lack of cult and ritual and by our de animated natural world as well as in the emergence of conceptual thought and psychological awareness which could only arise with the dissolution of a prereflective mythic mode of being in the world But what appears to be straightforward becomes complicated when myth is intentionally conflated with thought and reflection usually in the attempt to cultivate a mythic consciousness that aims to restore meaning to life and assuage the spiritual malaise of contemporary culture Myth cannot rest in peace It must be continually unearthed redefined and recontextualized such that modern and postmodern notions of myth are made to substitute for something that has never been experienced only imagined *The Practice of Dream Healing* Edward Tick,2001-08-01 Asklepios was the gentle Greek god of healing Like Christ he was said to have walked the earth performing miracle cures His medicine was practiced by priests who interpreted patients dreams in which the god gave advice Dr Tick s classic work explores dream healing techniques from this ancient tradition **Baldr's Magic** Nicholas E. Brink,2014-03-03 A guide to using ecstatic trance to connect with your ancestors rediscover your extrasensory powers and reclaim the peaceful nature of humanity Illustrates ecstatic trance postures to

connect with the ancient Nordic people to journey to exact points in time and to access powers such as seeing into our future Explains how the coming new age of peace and veneration for Mother Earth was predicted in Norse mythology as the rebirth of the compassionate god Baldr Expands on the stories of the early Nordic gods and goddesses from the Prose Edda and the Poetic Edda Connecting Norse mythology ecstatic trance the Universal Mind and the dawn of a new age of peace and veneration for Mother Earth Nicholas Brink reveals how we can use ecstatic and hypnotic trance to learn more directly and deeply from our distant ancestors rediscover our extrasensory powers and reclaim the original magical nature of humanity The imminent rebirth of a peaceful balanced connected world was predicted in Norse mythology as the return of Baldr the gentle and compassionate Nordic god of truth healing and rune work Illustrating ecstatic trance postures to connect with the ancient Nordic people and their beliefs to journey to exact points in time and to access specific powers such as seeing into our future Brink explores humanity s evolving cycle of consciousness from the era when the Great Mother goddess was the center of life through the transition to the worship of power and physical strength in the Bronze Age and the world of the Vikings He explores the coming return of Baldr and the imminent new age of peace and respect for the earth Through hypnotic divination the author expands the stories of the early Nordic gods and goddesses from the Prose Edda and the Poetic Edda in particular the fertility deities of the Vanir such as Freyr Freyja and Idunn who came before the warrior deities of the Aesir such as Odin Thor and Loki He details the epic battle of Ragnarok and the birth life death and rebirth of Baldr Brink shows how these ancient stories happen outside of time in the past present and future thus Baldr s return is replayed in our death rebirth experiences of life in each dawn with each spring and now with the birth of a new age that we see happening all around us Through the power of trance at this time of rebirth we move full circle to reclaim the magic of the earliest times the times of the Garden of Idunn
