coastal installations and the air dropping of dozens of agents into enemy territory as well as psychological warfare designed to make Hanoi believe the resistance movement was larger than it actually was. It offers a more complete operational account of the program than has ever been made available particularly its early years and ties known events in the war to covert operations such as details of the 34 A Operations that led to the Tonkin Gulf incidents in 1964. It also explains in no uncertain terms why the whole plan was doomed to failure from the start. One of the remarkable features of the operation claim the authors is that its failures were so glaring. They argue that the CIA and later the Pentagon was unaware for years that Hanoi had compromised the commandos even though some agents missed radio deadlines or filed suspicious reports. Operational errors were not attributable to conspiracy or counterintelligence they contend but simply to poor planning and lack of imagination. Although it flourished for ten years under cover of the wider war covert activity in Vietnam is now recognized as a disaster. Conboy and Andrade's account of that episode is a sobering tale that lends a new perspective on the war as it reclaims the lost lives of these unsung spies and commandos.
