The National Childbirth Trust Get Into Shape After Childbirth:

The National Childbirth Trust Book Of Breastfeeding Mary Smale, 2011-08-31 There is no doubt that breast is best and it is the most natural way of feeding your baby. The majority of mothers approach breastfeeding with an optimism and a desire to succeed but in many cases this soon disintegrates into failing milk supplies and sore nipples. No one ever tells you how difficult and painful it can be. It is the usual cry from a new mother. Now you can have help permanently on hand in your own home. Fully updated and packed with practical advice on every aspect of breastfeeding from positioning your baby correctly and latching on to timing and successful weaning. THEN NATIONAL CHILDBIRTH TRUST BOOK OF BREASTFEEDING offers solutions to the kind of day day problems and emotional concerns that affect breastfeeding women every day. Written by a counsellor with fifteen year experience and published in association with Britain's largest childbirth charity this book will give you the confidence to make your baby's first months happy and trouble free for both of you. *Midwifery Practice* Jo

Alexander, Valerie Levy, Sarah Roch, 1993-11-11 This latest volume in the immensely popular Midwifery Practice Series deals with a further set of important issues this time drawn from all three stages of care during pregnancy. The chapter structure adopted in the first three books is retained and as before presentation of a broad ranging survey and analysis of key research literature placed in the context of clinical practice is the guiding philosophy behind the whole book. **Pregnancy and**

Childbirth Jan de Vries, 2011-06-10 Allaying the doubts and fears which surround the most natural and yet probably the most traumatic experience a woman will go through. Pregnancy and Childbirth takes you step by step through conception, pregnancy, labour and the care of your baby. Calling upon a lifetime's experience in helping couples who have come to him following years of trying for a baby, Jan de Vries explains how he has helped them with either herbal or homoeopathic medicine, acupuncture or osteopathy. He describes how acupuncture can help especially during labour and provides advice for couples who have undergone severe stress when dealing with problems such as impotence or feelings of inadequacy or rejection. What emerges from his extensive research is an overwhelming sense of hope in the wonder of nature and joy at the miracle of each new birth. **Complete Book of Pregnancy** Daphne Metland, 2000 Drawing on the National Childbirth

Trust's expertise and experience in the field of childcare to guide new mothers calmly through what can be one of the most daunting periods of their life, this book focuses on a young mother, 20-25, an older mother, 35-40, and a second time mother through their pregnancy. **The Complete Guide to Pregnancy and Fitness** Morc Coulson, Sarah Bolitho, 2013-05-09 The Complete Guide to Pregnancy and Fitness is an invaluable reference manual for anyone involved in prescribing exercise programmes for pregnant women. The book is packed with practical tips on designing activity programmes as well as how to apply the correct techniques to over 40 exercises aided by full colour photos. This is an up to date practical guide to the underpinning theory and includes comprehensive recommended reading for each chapter. Learn about the physiological changes during pregnancy and how this affects exercise programmes including contra indications to be considered when

working with pregnant clients Also covered are the required legal and insurance elements
