Gevirtz, 2014-03-06 This book shows how early women novelists from Aphra Behn to Mary Davys drew on debates about the self generated by the scientific revolution to establish the novel as a genre Fascinated by the problematic idea of a unified self underpinning modes of thinking female novelists innovated narrative structures to interrogate this idea **Novel Approaches in Cognitive Informatics and Natural Intelligence** Wang, Yingxu, 2008-12-31 Presents the latest advancements in cognitive informatics and natural intelligence Covers the five areas of cognitive informatics natural intelligence autonomic computing knowledge science and relevant development *The Natural World in the Exeter Book Riddles* Corinne Dale, 2017 An investigation of the non human world in the Exeter Book riddles drawing on the exciting new approaches of eco criticism and eco theology The Natural History of Uncas Metcalfe Betsey Osborne, 2007-04-17 Betsey Osborne has pulled off an astonishing feat She's written a compelling elegant tale of nuance and loss with the confidence of a fiction veteran The Philadelphia Inquirer Osborne writes effortlessly and wisely plumbing the troubled depths of the seemingly unruffled surface of ordinary life This is an auspicious debut by a new and very promising writer The Providence Journal A graceful minuet of a novel Osborne's concerns are gratifyingly complex the predicaments she orchestrates unusual and suspenseful her humor lithe and her insights are keen and provocative Booklist Writing with the precise and haunting tones of Virginia Woolf Betsey Osborne creates a compelling a world Uncas Metcalfe is a character for the ages Stephen J Dubner author of the New York Times bestseller *Freakonomics* Uncas Metcalfe is a sixty five year old botany professor from a once prosperous central New York town whose habitat is changing much too quickly his wife is ill his daughter has returned home and memories of an almost forgotten infidelity have resurfaced Uncas is rooted in a life of plants and manners When his routine is upended by the menacing demands of a former student Uncas finds his comfortably obstinate nature at odds with his family's growing impatience and a newfound terrifying uncertainty The *Natural History of Uncas Metcalfe* follows an unforgettable hero as he struggles to right himself and adapt to changing expectations

even as he approaches the end of his life Beautifully wrought and wonderfully imagined the Metcalfe family will linger in your imagination long after the last page **First French Book After the Natural Method** James Henry Worman, 1909
