The Nature Of The Non Western World:

The Nature of the Non-Western World Vera Micheles Dean,1965 The Nature of the Non-Western World Vera Micheles Dean,1957 **The Nature of the Non-western World** Vera Micheles Dean,1959 The Nature of the Non-Western World Vera Nichles Dean,1968-05-01 *The Non-Western World* Pradyumna Prasad Karan,2004 This introductory textbook provides an integrated up to date introduction to the lands people and cultures of the non Western world Popular Musics of the Non-Western World Peter Manuel,1988 Emphasizing stylistic analysis and historical development this unique book is the first to examine all major non Western music styles from reggae and salsa to the popular musics of non Western Europe Asia Africa and the Middle East Enlightenment Political Thought and Non-Western Societies Frederick G. Whelan,2009-05-07 Frederick G Whelan a leading scholar of Enlightenment political thought provides an illuminating and incisive interpretation of key eighteenth and nineteenth century European political thinkers accounts and assessments of the societies and political institutes of the non Western world These writers opened up a major new comparative dimension for political theory and its project both to explain and evaluate different political regimes While the intellectual confrontation of European thinkers with alien cultures tended on the whole to confirm Westerners sense of the superiority of their own institutions it was also characterized during the Enlightenment more so than later by convictions regarding a common humanity and a corresponding sympathetic curiosity about different ways of life however primitive or exotic they might appear This book will be of interest to students and scholars of both political philosophy and thought as well as historians of this important period of history **Encyclopaedia of the History of Science, Technology, and Medicine in Non-Western Cultures** Helaine Selin,2008-03-12 Here at last is the massively updated and augmented second edition of this landmark encyclopedia It contains approximately 1000 entries dealing in depth with the history of the scientific technological and medical accomplishments of cultures outside of the United States and Europe The entries consist of fully updated articles together with hundreds of entirely new topics This unique reference work includes intercultural articles on broad topics such as mathematics and astronomy as well as thoughtful philosophical articles on concepts and ideas related to the study of non Western Science such as rationality objectivity and method You ll also find material on religion and science East and West and magic and science **Azibuye emasisweni** Zethu Cakata ,Nompumelelo Z. Radebe,Mogobe B. Ramose ,2023-06-28 African knowledge is yet to fully contribute to spaces of learning because of the disciplinary boundaries founded on Western separatist logic From an African epistemology knowledge is interconnected because of the cosmological understanding that the universe is one entity Bringing African knowledge into the academy requires a concerted effort to bring it of its own accord There have been commendable efforts by scholars in South Africa to bring African knowledge to higher education in ways that do not alter or re shape this knowledge to suit the dominant Euro American script This book aims to showcase such efforts This book makes interconnections of themes across disciplines The

content produced in this book will ensure that literature will anchor the noble efforts to build African universities that deliberately centre African ways of knowing This book will be among the few publications that focus on Africanisation and decolonisation of knowledges as praxis We anticipate that this book will be recommended in various disciplines of social sciences in South African universities Transcending the Culture-Nature Divide in Cultural Heritage Sally Brockwell, Sue O'Connor, Denis Byrne, 2013-12-13 While considerable research and on ground project work focuses on the interface between Indigenous local people and nature conservation in the Asia Pacific region the interface between these people and cultural heritage conservation has not received the same attention This collection brings together papers on the current mechanisms in place in the region to conserve cultural heritage values It will provide an overview of the extent to which local communities have been engaged in assessing the significance of this heritage and conserving it It will address the extent to which management regimes have variously allowed facilitated or obstructed continuing cultural engagement with heritage places and landscapes and discuss the problems agencies experience with protection and management of cultural heritage places
