Routledge Handbook of Environmental Impact Assessment Kevin Hanna, 2022-04-10 Globally environmental impact assessment EIA is one of the most enduring and influential environmental management tools This handbook provides readers with a strong foundation for understanding the practice of EIA by outlining the different types of assessment while also providing a guide to best practice This collection deploys a research and practice based approach to the subject delivering an overview of EIA as an essential and practical tool of environmental protection planning and policy To best understand the most pertinent issues and challenges surrounding EIA today this volume draws together prominent researchers practitioners and young scholars who share their work and knowledge to cover two key parts The first part introduces EIA processes and best practices through analytical and critical chapters on the stages elements of the EIA process and different components and forms of assessment These provide examples that cover a wide range of assessment methods and cross cutting issues

including cumulative effects assessment social impact assessment Indigenous led assessment risk assessment climate change and gender based assessment The second part provides jurisdictional reviews of the European Union the US National Environmental Policy Act recent assessment reforms in Canada EIA in developing economies and the EIA context in England By providing a concise outline of the process followed by in depth illustrations of approaches methods and tools and case studies this book will be essential for students scholars and practitioners of environmental impact assessment

African Perspectives on Religion and Climate Change Ezra Chitando, Ernst M. Conradie, Susan M. Kilonzo, 2022-05-12 This book interrogates the contributions that religious traditions have made to climate change discussions within Africa whether positive or negative Drawing on a range of African contexts and religious traditions the book provides concrete suggestions on how individuals and communities of faith must act in order to address the challenge of climate change Despite the fact that Africa has contributed relatively little to historic carbon emissions the continent will be affected disproportionately by the increasing impact of anthropogenic climate change Contributors to this book provide a range of rich case studies to investigate how religious traditions such as Christianity Hinduism Islam and indigenous faiths influence the worldviews and actions of their adherents The chapters also interrogate how the moral authority and leadership provided by religion can be used to respond and adapt to the challenges posed by climate change Topics covered include risk reduction and resilience youth movements indigenous knowledge systems environmental degradation gender perspectives ecological theories and climate change financing This book will be of interest to scholars in diverse fields including religious studies sociology political science climate change and environmental humanities It may also benefit practitioners involved in solving community challenges related to climate change The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Theory and Practice of Transboundary Environmental Impact Assessment Kees Bastmeijer, Timo Koivurova, 2008

Environmental Impact Assessment EIA is a well established instrument of Environmental Law and policy that aims to ensure that potential adverse environmental effects of human activities are assessed before decisions on such activities are made The instrument is increasingly being applied in respect of activities that may cause environmental effects across the borders of a state In this book thirteen systems of Transboundary Environmental Impact Assessment TEIA are assessed that exist or are in development in different parts of the world Although TEIA is generally associated with EIA between territorial states this book takes a broader approach and is divided into three sub parts Transboundary EIA between states EIA for activities in international and shared areas and EIA required by international financial institutions Knowledgeable experts scholars and practitioners provide an overview of the history content and practice of the individual systems and based on these discussions the state of the art concerning TEIA and possible future developments are discussed
