The New Asian Way Rebuilding Asia Through Selfreliance:

The New Asian Way Wai Fong Foong,1999 Aims to demonstrate how a new Asia can be built through the adoption of the new Asian way drawing on lessons from both the East and the West Shows how modern methods of wealth creation governance and technology have all been developed by the West and investigates how Asia can learn from these achievements while maintaining the best of traditional cultural values **Northeast Asian Regionalism** Christopher M. Dent,David W. F. Huang,2002-03-28 Examines both actual and potential developments in North East Asian regionalism from various levels and fields of analysis considering cooperative and integrative structures and processes Particular reference is made to the contemporary experience of Europe which provides important models of cooperation and integration in both the government an The New Regional Politics of Development Anthony Payne,2019-08-09 The New Regional Politics of Development assesses the various development strategies being pursued in each of the major regions of the world While huge inequalities in wealth and capacity remain a hallmark of the twenty first century world order the contributors argue that hard and fast distinctions between developed and developing states are outdated and inhibit our understanding of the real relationships and dynamics at work Governance in Pacific Asia Peter Ferdinand,2012-02-02 This book examines the political economy of the states of Pacific Asia stretching from Japan to Burma since the end of WWII Governance in Pacific Asia offers a comprehensive account of the diverse experiences of the states in Pacific Asia Organized thematically around government and business relations in the main sectors of the economy chapters cover the historical social and cultural contexts for such policies as well as the social and political consequences of rapid economic development They also discuss the increasing economic integration of the region as well as its impact on global affairs and the reverse effect of globalization upon particular political systems Each chapter contains case studies and examples from anywhere in the region with some countries appearing more regularly such as China Japan newly industrialized economies Thailand the Philippines Malaysia Indonesia and Vietnam Governance in Pacific Asia provides an in depth comparative survey of a key region in world politics and political economy An essential text that includes sources from the region in at least three languages Chinese Japanese and Indonesian Malay it will be of interest to students and faculty in international relations developmental politics Asian politics and political economy **The Changing Face of Japanese Management** Keith Jackson,Miyuki Tomioka,2004-03 The practice and perceptions of Japanese management are undergoing fundamental change This book sets out to identify the essential currents of change and explain how and why these impinge on the experience of managers in Japan

Reconfiguring Public Relations David McKie,Debashish Munshi,2007-05-24 This book reconfigures the field of public relations so that it can better engage with the changing world of the 21st century It identifies the virtual absence of contemporary theories that are core in other disciplines and fills the gap by integrating critical postmodern poststructural postcolonial and other relevant theories into public relations Reconfiguring Public Relations reenergises thinking about

diversity through equity and in terms of business enterprise and environmental sustainability It makes the case for more equitable diversity strategies in an era of increasing globalisation and establishes their relevance to organisational identity and core values The book clarifies the present by taking a look back at the past and projecting forward to possible futures including scenarios A Plastic Nation Pavin Chachavalpongpun,2005-08-18 A Plastic Nation examines the role of Thai nationhood in domestic and international politics Although in fact ill defined Thainess or khwampenthai has been consistently used by Thai leaders to legitimize their power and defend their economic interests Not only has the assertion of Thainess been deeply rooted in the private interests of those in power it has been deployed as part of nationalist sentiment to guard against any international norms often considered as threats to the leaders own interests This book is intended for students and professors in the field of Thai nationhood and nationalism contemporary Thai Burmese relations and policy practitioners in the government and military **Reconfigurar las relaciones públicas** David McKie,Debashish Munshi,2011-07

Reconfigurar las relaciones p blicas es el objetivo de este libro Puesto que vemos a este campo aislado intelectualmente y fuera del alcance de los avances en otras disciplinas proponemos formas a veces muy especulativas para redirigir esto y esperamos iniciar debates m s interesantes sobre lo que ha de llegar de las RR PP La insularidad del sector es especialmente limitadora en lo que se refiere a las actuales condiciones globales por lo que ponemos de relieve conocimientos que no son habituales en RR PP y en los que nos arriesgamos a exponer nuestra falta de experiencia El prop sito no es precipitarnos a exponer nuestra ignorancia sino animar a otros mejor informados a ampliar el conocimiento para avanzar en el campo

Berita ,2000 **Latin America and East Asia, Attempts at Diversification** Jörg Faust,Manfred Mols,Wön-ho Kim,2005 Many efforts have been spend on investigating increasing interdependence within the Pacific Rim However the dynamic development of relations between Latin America und East Asia in the last two decades have not attracted much academic attention In order to fill this gap the authors of this volume present one of the first encompassing analysis of political and economic relations between Latin America and East Asia
