The New Geopolitics Of Energy Eep:

The New Geopolitics of Energy John V. Mitchell, Peter Beck, Michael Grubb, 1996 This path breaking study attempts to define a new international dimension to energy policy that takes account of the dramatic political changes since the oil crises of the 1970s This new geopolitics of energy is creative rather than defensive aligned to market oriented development rather than state management But governments have a role in promoting stable international conditions for trade and investment in energy which in turn contribute to wider political stability the development of more widely acceptable options for nuclear power coordinated international action to mitigate the risks of climate change and other environmental impacts This book is invaluable reading for executives and analysts in the energy business and for strategic thinkers who believe that broader policies should in keeping with current energy trends

Russia, Eurasia and the New Geopolitics of Energy Roger E. Kanet, Matthew Sussex, 2015-10-05 By combining perspectives from experts in domestic politics regional politics and specialists in international security this edited volume focuses on the central role of energy production and supply in the Russian Western completion across Eurasia

New Energy, New Geopolitics Sarah O. Ladislav, Maren Leed, Molly A. Walton, 2015-05-15 This report evaluates the energy and geopolitical shifts that have arisen from the production of shale gas and light tight oil in the United States It begins by assessing how much the unconventional energy trend has already impacted energy geopolitics and national security The report then posits several possible energy futures that could emerge from the unconventional revolution Finally it offers views on the major geostrategic question how will the United States seek to utilize this so far domestic resource trend and given the range of potential future energy outcomes what might the geopolitical and national security implications be This report pairs with three background reports all available from Rowman Littlefield New Energy New Geopolitics Background Report 1 Energy Impacts New Energy New Geopolitics Background Report 2 Geopolitical and National Security Impacts New Energy New Geopolitics Background Report 3 Scenarios Strategies and Pathways

The New Politics of Energy Security in the European Union and Beyond Andrea Prontera, 2017-05-18 Combining theoretical reflections and empirical insights from paradigmatic case studies in the area of external energy governance pipeline politics Liquefied Natural Gas development and offshore petroleum policy and politics this ground breaking study demonstrates that a distinctive and new politics of energy security is definitively emerging in the European Union Innovative not only in regard to the case studies presented which include the Caspian region the Baltic Meditterrean countries Central Asia and EU Russia relations but also in regard to the analytical framework adopted an International Political Economy approach informed by an historical institutional perspective the book challenges the common view of the de politicisation of energy security supported by the mainstream market approach and the power politics and zero sum game view supported by the geopolitical perspective This book places the study of EU energy politics in the broader evolving context of global energy markets and explores the complex interactions between EU and national political dynamics and

between energy security and environmental concerns at the local level

The New Geopolitics of the South Caucasus

Shireen T. Hunter, 2017-09-22 This collection surveys the three South Caucasian states economic social and political evolution since their independence in 1991 It assesses their successes and failures in these areas including their attempts to build new national identities and value systems to replace Soviet era structures It explains the interplay of domestic and international factors that have affected their performance and influenced the balance of their successes and shortcomings It focuses on the policies pursued by key regional and international actors towards the region and assesses the effects of regional and international rivalries on these states development as well as on the prospects for regional cooperation and conflict resolution Finally it analyzes a number regional and international developments which could affect the future trajectory of these states evolution

Survival: October - November 2022 The International Institute for Strategic Studies (IISS), 2023-04-21 *Survival* the IISS s bimonthly journal challenges conventional wisdom and brings fresh often controversial perspectives on strategic issues of the moment In this issue Marcus Willet argues that the Russia Ukraine war reveals much about the nature of cyber warfare including the battle for hearts and minds and the role of vigilantes Angela Stent contends that Putin badly misjudged how Germany would respond to the war in Ukraine in failing to anticipate that Olaf Scholz would provisionally jettison Ostpolitik Jude Blanchette and Evan S Medeiros assess likely drivers and characteristics of Xi Jinpings upcoming third term as Chinese leader Nicholas Crawford and David F Gordon make the case that the green energy transition is essential despite new geopolitical risks caused by greenflation Nigel Gould Davies examines the recent foreign policy failures of Belarus and Russia and sets out three lessons for a post war order in the region And five more thought provoking pieces as well as our regular Book Reviews and Noteworthy column

Global Energy Dilemmas Mike Bradshaw, 2013-11-18 Today s global energy system faces two major challenges how to secure the supply of reliable and affordable energy and how to rapidly transform to a low carbon efficient and environmentally harmless energy supply In this rigorous and illuminating book Michael Bradshaw explores the key aspects of the current global energy dilemma and examines how it is playing out across the major regions and countries of the world The book begins by charting the development of the current global energy system exploring its key characteristics with a focus upon energy security and the relationship between energy economic development and climate change The next four chapters offer in depth analyses of four distinct global energy dilemmas in different parts of the world the challenge of sustaining affluence and decarbonising energy services in the high energy economies of the developed world the legacies of the centrally planned economy and the consequences of liberalisation in the post socialist world growing energy demand and emissions growth associated with the emerging regions and finally the quest to provide universal access to modern energy services in the developing world in a manner that is both economically and environmentally sustainable Identifying the governance structures and policy options available to tackle the global energy dilemma the book concludes that only an integrated approach sensitive to regional

issues can reconcile the interests and needs of those facing differing energy challenges across the world today **THE CHANGING PERSPECTIVES AND 'NEW' GEOPOLITICS OF THE CAUCASUS IN THE 21ST CENTURY** SERDAR YILMAZ,MURAT YORULMAZ,2021-03-08 The change of the geopolitical realities and dynamics the latest regional developments and the emergence of a new perception of security due to the new situation in Karabakh have changed current perspectives in the South Caucasus region This book will provide a comprehensive introduction for students academics media representatives business persons and those who are interested in the region It will guide you through in a very readable and engaging style as it covers all the salient points and issues of the North Caucasus the autonomous republics succinctly and the South Caucasus Azerbaijan Georgia Armenia in detail After the last development and Russian direct involvement in the Karabakh issue the world s attention has focused increasingly on the Caucasus region Thus THE CHANGING PERSPECTIVES AND NEW GEOPOLITICS OF THE CAUCASUS IN THE 21ST CENTURY book will be an excellent introduction to the complexities of a little known the Caucasus region and make a significant contribution to the understanding of fundamental issues of the region As the editors we would like to dedicate this book to the heroic Azerbaijani soldiers who were martyred during the struggle for the liberation of the Karabakh lands from the Armenian occupation

The New Geopolitics of Natural Gas Agnia Grigas,2017-04-24 As the United States aggressively expands its exports of liquefied natural gas it stands poised to become an energy superpower This unanticipated reality is rewriting the conventional rules of intercontinental gas trade and realigning strategic relations among the United States the European Union Russia China and beyond as Agnia Grigas shows **Handbook of Oil Politics** Robert Looney,2012-01-25 To many oil markets and their linkages to a whole spectrum of events remain something of a mystery Unfortunately most of the easily obtained information on oil is deeply flawed Whole web conspiracy sites depict ruthless insiders and reckless dictators manipulating energy markets at will The 30 essays in this volume written by the leading experts in the field attempt to set the record straight While their assessments may lack the sensationalism of many popular pundits serious readers will find their insights invaluable in the years to come in providing a framework for understanding many of the events of the day The five sections Politics of Oil Supply Political Responses Regional Dimensions Country Case Studies and Key Issues for the Future give a comprehensive overview of the politics of oil world wide
