The New Is Not Yet Born Conflict Resolution In Southern Africa:

The New is Not Yet Born Thomas Ohlson, Stephen John Stedman, Robert H. Davies, 1994 In April 1994 black and white South Africans for the first time voted in a nonracial election for a democratic government This watershed election is one of many recent profound changes in Southern Africa including independence in Namibia democratic elections in Zambia and Malawi a peace agreement in Mozambique and renewed civil war in Angola The New Is Not Yet Born explores the sources and dynamics of the political economic and diplomatic transformations taking place in Southern Africa Thomas Ohlson Stephen John Stedman and Robert Davies recount how Southern Africa has long endured violent domestic and interstate conflicts often complicated and intensified by external interventions and interests The cost of these struggles by all measures has been staggering The authors show how conflict in Southern Africa has left and continues to leave tremendous socioeconomic destruction They identify the past present and possible future sources of conflict in the region They describe the security implications of conflict and evaluate the institutions organizations and policies that might help reduce or resolve conflict and provide security for the people and countries of Southern Africa Although the democratic transition in South Africa opens the possibility of creating a secure Southern Africa the authors note that past conflict legacies and new unanticipated conflicts could stand in the way They conclude that the challenge ahead will be to establish new national and regional institutions which enable actors to resolve conflict without resorting to violence This book suggests ways that international action can help the birth of a new Southern Africa BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved The Resolution of African Conflicts Alfred G. Nhema, Paul Tiyambe Zeleza, 2008 These two volumes clearly demonstrate the efforts by a wide range of African scholars to explain the roots routes regimes and resolution of African conflicts and how to re build post conflict societies They offer sober and serious analyses eschewing the sensationalism of the western media and the sophistry of some of the scholars in the global North for whom African conflicts are at worst a distraction and at best a confirmation of their pet racist and petty universalist theories From the introduction by Paul Tiyambe Zeleza This book offers analyses of a range of African conflicts and demonstrates that peace is too important to be left to outsiders The New is Not Yet Born Thomas Ohlson, Stephen John Stedman, Robert H. Davies, 1994 This book explores the sources and dynamics of the political economic and diplomatic transformations taking place in Southern Africa These authors recount how Southern Africa has long endured violent domestic and interstate conflicts often complicated and intensified by external interventions and interests They also show how conflict in Southern Africa has left and continues to leave tremendous socioeconomic destruction **Southern Africa After Apartheid** Bertil Odén, 1993 **Civil Wars, Insecurity, and Intervention** Barbara F. Walter, Jack L. Snyder, 1999 Since the end of the Cold War a series of costly civil wars many of them ethnic conflicts have dominated the international security agenda This volume offers a detailed examination of four recent interventions by the international community After the Peace Robert L.

Rothstein,1999 After the Peace examines peace agreements made in the period after the Cold War and ways in which these agreements might be strengthened Six studies are included that explore three major conflicts from a number of perspectives

Sovereignty as Responsibility Francis M. Deng,Sadikiel Kimaro,Terrence Lyons,2010-12-01 The authors assert that sovereignty can no longer be seen as a protection against interference but as a charge of responsibility where the state is accountable to both domestic and external constituencies In internal conflicts in Africa sovereign states have often failed to take responsibility for their own citizens welfare and for the humanitarian consequences of conflict leaving the victims with no assistance This book shows how that responsibility can be exercised by states over their own population and by other states in assistance to their fellow sovereigns Sovereignty as Responsibility presents a framework that should guide both national governments and the international community in discharging their respective responsibilities Broad principles are developed by examining identity as a potential source of conflict governance as a matter of managing conflict and economics as a policy field for deterring conflict Considering conflict management political stability economic development and social welfare as functions of governance the authors develop strategies guidelines and roles for its responsible exercise Some African governments such as South Africa in the 1990s and Ghana since 1980 have demonstrated impressive gains against these standards while others such as Rwanda Somalia Liberia Nigeria and Sudan have failed Opportunities for making sovereignty more responsible and improving the management of conflicts are examined at the regional and international levels The lessons from the mixed successes of regional conflict management actions such as the West African intervention in Liberia the East African mediation in Sudan and international efforts to urge talks to end the conflict in Angola indicate friends and neighbors outside the state in conflict have important roles to play in increasing sovereign responsibility

Approaching conflict management from the perspective of the responsibilities of sovereignt **Manipulating Political**

Decentralisation Lovise Aalen,Ragnhild L. Muriaas,2017-10-12 Can autocrats establish representative subnational governments And which strategies of manipulation are available if they would like to reduce the uncertainty caused by introducing political decentralisation In the wake of local government reforms several states across the world have introduced legislation that provides for subnational elections This does not mean that representative subnational governments in these countries are all of a certain standard Political decentralisation should not be confused with democratisation as the process is likely to be manipulated in ways that do not produce meaningful avenues for political participation and contestation locally Using examples from Africa Lovise Aalen and Ragnhild L Muriaas propose five requirements for representative subnational governments and four strategies that national governments might use to manipulate the outcome of political decentralisation The case studies of Ethiopia Malawi South Africa and Uganda illustrate why autocrats sometimes are more open to competition at the subnational level than democrats Manipulating Political Decentralisation provides a new conceptual tool to assess representative subnational governments quality aiding us in

building theories on the consequences of political decentralisation on democratisation *Encyclopedia of Conflicts since World War II* James Ciment, Kenneth Hill, 2012-12-06 This copiously illustrated A Z reference presents the most in depth information available about the various conflicts the world has endured local regional and international since World War II Some 142 conflicts are discussed and analyzed The Encyclopedia of Conflict since World War II with its coverage of all the countries of the world fills a critical need for clear comprehensive explanations of events not covered in such detail in any other reference source Entries end with an extensive bibliography and the encyclopedia includes maps chronologies and a general bibliography as well as an index designed to make the reader understand the correlation and relationships between individual conflicts

Historical Dictionary of Angola W. Martin James, 2018-03-01 Angola slowly recovering from a twenty seven year civil war is becoming a regional super power in southern Africa This rise can be attributed to oil diamonds a battle tested armed forces and a political system that is dominated by one party the Movimento Popular de Libertação de Angola the Popular Movement for the Liberation of Angola MPLA Problems remain to be solved The vast wealth is in the control of the elite while the vast majority of the people live on less than two dollars per day Corruption is rife the health and education system in shambles landmines remain a festering problem and the opposition is intimidated and split into various factions President Eduardo dos Santos who has ruled Angola for almost thirty eight years has opted not to run for re election in the August 2017 elections Instead his hand picked successor João Lourenço was elected president Interestingly dos Santos has not surrendered his presidency of the party This third edition of Historical Dictionary of Angola contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Angola
