The New Man In Soviet Psychology Russian Research Center Studies 7:

Russian Research Center Studies, 1964 **The Dynamics of Soviet Politics** Paul Cocks, Robert Vincent

Daniels, Nancy Whittier Heer, 1976 *The Dynamics of Soviet Politics* is the result of reflective and thorough research into the centers of a system whose inner debates are not open to public discussion and review a system which tolerates no public opposition parties no prying congressional committees and no investigative journalists to ferret out secrets The expert authors offer an inside view of the workings of this closed system a view rarely found elsewhere in discussions of Soviet affairs Their work building as it does on the achievements of Soviet studies over the last thirty years is firmly rooted in established knowledge and covers sufficient new ground to enable future studies of Soviet politics and social practices to move ahead unencumbered by stereotypes sensationalism or mystification Among the subjects included are attitudes toward leadership and a general discussion of the uses of political history the dramatic cycles of officially permitted dissent the legitimacy of leadership within a system that has no constitutional provision for succession the gradual adoption of Western inspired administrative procedures and systems management a study of group competition and bureaucratic bargaining Khrushchev's virgin lands experiment and its subsequent retrenchment the apolitical values of adolescents the problems of integrating Central Asia into the Soviet system a history of peaceful coexistence and its current importance in Soviet foreign policy priorities and finally an overview of Soviet government as an extension of prerevolutionary oligarchy with an emphasis on adaptation to political change *Dictionary Catalog of the University Library, 1919-1962* University of California, Los Angeles. Library, 1963

The Soviet Bloc, Unity and Conflict Zbigniew Brzezinski, 1967 This is the first full length study of relations among the communist states The study explores the implications of the status of Yugoslavia and China the significance of the Hungarian revolution and the position of Poland in the Soviet bloc and clarifies the Khrushchev Gomulka clash of 1956 and the complex role of Tito Zbigniew Brzezinski emphasizes the role of ideology and power in the relations among the communist states contrasting bloc relations and the unifying role of Soviet power under Stalin with the present situation He suggests that conflicts of interest among the ruling elites will result either in ideological disputes or in weakening the central core of the ideology leading to a gradual decline of unity among the Communist states The author while on leave from his post as Professor and Director of the Research Institute on Communist Affairs Columbia University and serving on the U S State Department's Policy Planning Council has revised and updated his important study and added three new chapters on more recent developments He gives particular attention to the Sino Soviet dispute *Catalog of the*

Foreign Relations Library Foreign Relations Library, 1969 **The Rise and Fall of Communism in Russia** Robert V. Daniels, 2008-10-01 Distinguished historian of the Soviet period Robert V Daniels offers a penetrating survey of the evolution of the Soviet system and its ideology In a tightly woven series of analyses written during his career long inquiry into the Soviet Union Daniels explores the Soviet experience from Karl Marx to Boris Yeltsin and shows how key ideological notions

were altered as Soviet history unfolded The book exposes a long history of American misunderstanding of the Soviet Union leading up to the grand surprise of its collapse in 1991 Daniels s perspective is always original and his assessments some worked out years ago are strikingly prescient in the light of post 1991 archival revelations Soviet Communism evolved and decayed over the decades Daniels argues through a prolonged revolutionary process combined with the challenges of modernization and the personal struggles between ideologues and power grabbers **The Cumulative Book Index** ,1959

Liste mensuelle d'ouvrages catalogués à la Bibliothèque de la Société des Nations League of Nations Library,United Nations Library (Geneva, Switzerland),1952 *Dictionary Catalog of the Research Libraries of the New York Public Library, 1911-1971* New York Public Library. Research Libraries,1979 **Russia's Protectorates in Central Asia** Seymour Becker,2004-08-02 This book examines the Russian conquest of the ancient Central Asian khanates of Bukhara and Khiva in the 1860s and 1870s and the relationship between Russia and the territories until their extinction as political entities in 1924 It shows how Russia s approach developed from one of non intervention with the primary aim of preventing British expansion from India into the region to one of increasing intervention as trade and Russian settlement grew It goes on to discuss the role of Bukhara and Khiva in the First World War and the Russian Revolution and how the region was fundamentally changed following the Bolshevik conquest in 1919 20 The book is a re issue of a highly regarded classic originally published in 1968 and out of print for some years The new version includes a new introduction some corrections of errors and a survey of new work undertaken since first publication
