MacKenzie, 2017-03-01 Colonial war played a vital part in transforming the reputation of the military and placing it on a standing equal to that of the navy The book is concerned with the interactive culture of colonial warfare with the representation of the military in popular media at home and how these images affected attitudes towards war itself and wider intellectual and institutional forces It sets out to relate the changing image of the military to these fundamental facts For the dominant people they were an atavistic form of war shorn of guilt by Social Darwinian and racial ideas and rendered less dangerous by the increasing technological gap between Europe and the world Attempts to justify and understand war were naturally important to dominant people for the extension of imperial power was

seldom a peaceful process The entertainment value of war in the British imperial experience does seem to have taken new and more intensive forms from roughly the middle of the nineteenth century Themes such as the delusive seduction of martial music the sketch of the music hall song powerful mythic texts of popular imperialism and heroic myths of empire are discussed extensively The first important British war correspondent was William Howard Russell 1820 1907 of The Times in the Crimea The 1870s saw a dramatic change in the representation of the officer in British battle painting Up to that point it was the officer s courage tactical wisdom and social prestige that were put on display *The Cambridge History of the British Empire* John Holland Rose, Arthur Percival Newton, Ernest Alfred Benians, Henry Dodwell, 1929 *The Cambridge History of India*, 1928 [India's Memorial Tribute to Her Late Gracious Majesty Queen Victoria, Empress of India](#) A.
