Greece, Macedon and Persia Timothy Howe,Erin Garvin,Graham Wrightson,2015-03-12 Greece Macedon and Persia contains a collection of papers related to the history and historiography of warfare politics and power in the Ancient Mediterranean world The contributions written by 19 recognized experts from a variety of methodological and evidentiary perspectives show how ancient peoples considered war and conflict at the heart of social political and economic activity Though focusing on a single theme war the papers are firmly based in the context of the wider social and literary issues of Ancient Mediterranean scholarship and as such consider war and conflict as part of a complex matrix of culture in which historical actors articulate their relationships with society and historical authors articulate their relationships with history The result is a rich understanding of Ancient World history and history writing The volume is presented in honour of Waldemar Heckel a foremost scholar of Alexander the Great and ancient warfare

Ceramics, Cuisine and Culture Michela Spataro,Alexandra Villing,2015-10-31 The 23 papers presented here are the product of the interdisciplinary exchange of ideas and approaches to the study of kitchen pottery between archaeologists material scientists historians and ethnoarchaeologists They aim to set

a vital but long neglected category of evidence in its wider social political and economic contexts Structured around main themes concerning technical aspects of pottery production cooking as socioeconomic practice and changing tastes culinary identities and cross cultural encounters a range of social economic and technological models are discussed on the basis of insights gained from the study of kitchen pottery production use and evolution Much discussion and work in the last decade has focussed on technical and social aspects of coarse ware and in particular kitchen ware The chapters in this volume contribute to this debate moving kitchen pottery beyond the Binfordian technomic category and embracing a wider view linking processualism ceramic ecology behavioral schools and ethnoarchaeology to research on historical developments and cultural transformations covering a broad geographical area of the Mediterranean region and spanning a long chronological sequence

The Rise and Fall of Classical Greece Josiah Ober, 2016-10-04 A major new history of classical Greece how it rose how it fell and what we can learn from it Lord Byron described Greece as great fallen and immortal a characterization more apt than he knew Through most of its long history Greece was poor But in the classical era Greece was densely populated and highly urbanized Many surprisingly healthy Greeks lived in remarkably big houses and worked for high wages at specialized occupations Middle class spending drove sustained economic growth and classical wealth produced a stunning cultural efflorescence lasting hundreds of years Why did Greece reach such heights in the classical period and why only then And how after the Greek miracle had endured for centuries did the Macedonians defeat the Greeks seemingly bringing an end to their glory Drawing on a massive body of newly available data and employing novel approaches to evidence Josiah Ober offers a major new history of classical Greece and an unprecedented account of its rise and fall Ober argues that Greece's rise was no miracle but rather the result of political breakthroughs and economic development The extraordinary emergence of citizen centered city states transformed Greece into a society that defeated the mighty Persian Empire Yet Philip and Alexander of Macedon were able to beat the Greeks in the Battle of Chaeronea in 338 BCE a victory made possible by the Macedonians appropriation of Greek innovations After Alexander's death battle hardened warlords fought ruthlessly over the remnants of his empire But Greek cities remained populous and wealthy their economy and culture surviving to be passed on to the Romans and to us A compelling narrative filled with uncanny modern parallels this is a book for anyone interested in how great civilizations are born and die This book is based on evidence available on a new interactive website To learn more please visit <http://polis.stanford.edu>
