The Making and Breaking of the Australian Family Michael Gilding, 2020-07-31 Once everyone knew what the family was It was something natural and without a history mum dad and the kids Divorce women in the workforce de facto relationships and the sexual liberation movements have fractured the old certainties Nowadays there is more talk about the family than ever even if no one is quite sure what it is anymore The making and breaking of the Australian family looks at the family in history It traces the shift from the household economy of the late nineteenth century to the child centred nuclear family of the mid twentieth century to the recent proliferation of households The book argues that the so called traditional family was a quite recent creation and that its fragmentation is obscured by new redefinitions of the family The making and breaking of the Australian family addresses the changing experiences of childhood parenting home neighbourhood work birth and sexuality It examines the expansion of the market and the state patterns of class mobilisation the reconstruction of masculinity and femininity and the creative strategies of ordinary people in everyday life This is a lively and accessible book which will prove a valuable reference for students of history sociology women s studies and Australian studies and will generate wide discussion amongst people concerned with family policy welfare and contemporary social issues
