Reading Between the Lines Kenneth Brophy, 2015-10-05 Reading Between the Lines The Neolithic Cursus Monuments of Scotland is the first systematic analysis of Scotland's cursus monuments and is written by one of the foremost scholars of the Neolithic in Scotland Drawing on fifteen years of experience of cropmark interpretation as well as his involvement in several excavations of cursus monuments and contemporary sites Kenneth Brophy uncovers some of the secrets of the Neolithic landscape While outlining the physical characteristics of the cursus this book also addresses the limitations of this kind of typological description when applied to monuments which varied so remarkably in terms of materiality and size Moving beyond a morphological account Brophy considers what can be said of this diverse group of sites and how they were actually built and used in prehistory in light of several decades of aerial reconnaissance and excavation in Scotland Through a close study of the differences as well as the similarities between these structures this book offers a nuanced account of cursus monuments finally allowing this important monument type to be better understood and placed alongside others of the period Offering exciting new ways of thinking about these enigmatic yet important monuments Reading Between the Lines The Neolithic Cursus Monuments of Scotland is an essential resource for students and specialists in British prehistory providing an introduction to the Early Neolithic archaeology of lowland Scotland as well as a meditation on broader aspects of monumentality and architecture

Crossing Boundaries Eric Cambridge, Jane Hawkes, 2017-04-30 Interdisciplinary studies are increasingly widely recognised as being among the most fruitful approaches to generating original perspectives on the medieval past In this major collection of 27 papers contributors transcend traditional disciplinary boundaries to offer new approaches to a number of themes ranging in time from late antiquity to the high Middle Ages The main focus is on

material culture but also includes insights into the compositional techniques of Bede and the Beowulf poet and the strategies adopted by anonymous scribes to record information in unfamiliar languages Contributors offer fresh insights into some of the most iconic survivals from the period from the wooden doors of Sta Sabina in Rome to the Ruthwell Cross and from St Cuthbert's coffin to the design of its final resting place the Romanesque cathedral at Durham Important thematic surveys reveal early medieval Welsh and Pictish carvers interacting with the political and intellectual concerns of the wider Insular and continental world Other contributors consider what it is to be Viking revealing how radically present perceptions shape our understanding of the past how recent archaeological work reveals the inadequacy of the traditional categorisation of the Vikings as incomers and how recontextualising Viking material culture can lead to unexpected insights into famous historical episodes such as King Edgar's boat trip on the Dee Recent landmark finds notably the runic inscribed Saltfleetby spindle whorl and the sword pommel from Beckley are also published here for the first time in comprehensive analyses which will remain the fundamental discussions of these spectacular objects for many years to come This book will be indispensable reading for everyone interested in medieval culture

Spirits in Stone Glenn Kreisberg, 2018-04-10 A ground breaking study of ceremonial stone landscapes in Northeast America and their relationship to other sites around the world Features a comprehensive field guide to hundreds of megalithic stone structures in northeastern America including cairns perched boulders and effigies Details the Wall of Manitou the Hammonasset Line landscape astronomy along the Hudson River and a several acre area in Woodstock NY with large carefully constructed lithic formations Analyzes the archaeoastronomy archaeoacoustics and symbolism of these sites to reveal their relationships to other ceremonial stone sites across America and the world Presenting a comprehensive field guide to hundreds of lost forgotten and misidentified megalithic stone structures in northeastern America Glenn Kreisberg documents many enigmatic formations still standing across the Catskill Mountain and Hudson Valley region complete with functioning solstice and equinox alignments Kreisberg provides a first person description of the Wall of the Manitou which runs for 10 miles along the eastern slopes of the Catskill Mountains as well as narratives about related sites that include animal effigies reproductive organs calendar stones enigmatic inscriptions and evidence of alignments Using computer software he plots the trajectory of the Hammonasset Line which begins at a burial complex near the tip of Long Island and runs to Devil's Tombstone in Greene County New York He shows how the line runs at the same angle that marks the summer solstice sunset from Montauk Point on Long Island and when extended intersects the ancient copper mines of Isle Royal in Upper Michigan He documents a several acre area on Overlook Mountain in Woodstock New York with a grouping of very large carefully constructed lithic formations that together create a serpent or snake figure mirroring the constellation Draco He demonstrates how this site is related to the Serpent Mount in Ohio and Angkor Wat in Cambodia and reveals how all of the vast interlocking sites in the Northeast were part of an ancient spiritual landscape based on a sophisticated understanding of the cosmos as practiced by ancient Native Americans While modern

historians consider these sites to be colonial era constructions Kreisberg reveals how they were used to communicate with the spirit world and may be remnants of a long vanished civilization *Archaeologia Cambrensis*, 2001 **Polemical Encounters** Olav Hammer, Kocku Von Stuckrad, 2007 In its historical development from late antiquity to the present western esotericism has repeatedly been the issue of polemical discourse This volume engages the polemical structures that underlie both the identities within and the controversy about esoteric currents in European history From Jewish and Christian kabbalah through heretical discourse and interconfessional polemics in early modernity to the legitimization of esoteric identity in modern culture the 12 chapters accompanied by an editors introduction provide a cornucopia of relevant cases that are interpreted in a framework of polemical discourse and Othering This volume sheds new light on the ultimately polemical structure of western esotericism and thus opens new vistas for further research into esoteric discourse **Site and Survey Dowsing** Clive Thompson, 1980 *We Don't Dig Dinosaurs!* Sue T. Pendulums and the Light Diane Stein, 2011-02-23 Healing with Pendulums For thousands of years pendulums have been used as effective tools for divination and empowerment In Pendulums and the Light best selling author Diane Stein explains how to attain unrivaled pendulum accuracy by asking a Being of the Highest Light to guide your pendulum If pendulums haven't worked for you in the past you will find out why and learn how to use them perfectly now Stein also describes how to make or buy pendulums that perform optimally for your specific energy and needs and how to use pendulums in ways you have never thought of before Pendulums and the Light transforms pendulums from a psychic novelty into a serious healing tool that works with the Light to help your everyday life *Location Based Services and TeleCartography II* Georg Gartner, Karl Rehr, 2008-10-30 5th International Conference on Location Based Services and TeleCartography 2008 Salzburg The New Circlemakers Andrew Collins, 2009-03 What is the mystery of the crop circles Are they manmade or supernatural Today the majestic crop formations grace the very same pastures of southern England that in the past were the haunts of fairies hobgoblins and mysterious lights Here too are some of Britain's most spectacular prehistoric landscapes Stonehenge Avebury and Silbury Hill all act as ominous backdrops to the crop circle phenomenon Did our ancestors know something about this beguiling enchanting landscape that we are only now waking up to for the first time Is there a higher intelligence responsible for such creations and if so who are they and what are they trying to tell us Bizarrely the answer might lie not here on earth but 37 000 light years away in the constellation of Cygnus the Northern Cross where lurks a star perhaps responsible not only for the foundation of the world's earliest stone monuments but for the emergence of humanity itself The Phantom 01-08 July 1966 Gold Key Comics Lee Falk, 2014-08-15 Probably the best known of all Phantom comics in the U S A this series of 73 colour comics was published between Nov 1962 and Jan 1977 under three different publishers The series began under the Gold Key label published by K K Publications as a quarterly 12c comic With issue 11 in 1965 the series changed to a bi monthly In 1966 the release schedule returned to a quarterly basis and only lasted two more issues before the first change of publisher occurred In total there were 17 Phantom comics with the

Gold Key label All sported beautiful painted covers by George Wilson Three of these covers are reported to have been painted by another unknown artist 5 12 13 Most of the stories were adaptations of original Lee Falk newspaper strip stories with new artwork by Bill Lignante King Features Syndicate became the new publisher of The Phantom comics releasing their first issue in September 1966 under the King Comics label They continued the numbering sequence from the Gold Key series labelling this issue 18 It was published as a 12c bi monthly until issue 23 in mid 1967 when it changed to a monthly schedule Issue 28 was the last to be published under the King Comics label cover price 15c only 6 issues into the monthly schedule Of the 11 Phantom comics published by King all but one of the stories were illustrated by Bill Lignante The first two issues contained adaptations of older Lee Falk stories and thereafter the stories were original Issue 25 contained a story entitled The Cold Fire Worshippers which was reprinted from the Italian comics series American Adventures published by Fratelli Spada and drawn by Senio Pratesi The cover artwork on the first three of these comics were by Bill Lignante while all others appear to have been lifted directly from panels of Sy Barry s newspaper strips The reigns of The Phantom comic were picked up again over a year later February 1969 by Charlton Press using the Charlton Comics label They continued with the same numbering sequence but skipped 29 and began with 30 This first issue featured uncredited artwork but the covers and all but two of the stories in the next year of bi monthly issues were by Jim Aparo Issue 33 was the first to contain a story by Pat Boyette and Bill Lignante was brought back to illustrate his last Phantom story which appeared in 35 From issue 39 onwards August 1970 the cover and story artwork was exclusively by Pat Boyette With only a handful of exceptions each issue then contained three 7 page stories The art and stories during this period can best be described as woeful Despite a considerable volume of negative feedback from readers Charlton persisted with Pat Boyette until 59 in December 1973 The declining sales must have struck a nerve with Charlton who d changed their name to Charlton Publications after 56 and the comic was revived six months later in 60 as The New Phantom In their search for new artists and writers Charlton first relied on stories from the Italian publisher Fratelli Spada before introducing us to the work of Don Sherwood and more notably Don Newton In total Don Newton contributed six beautifully illustrated 22 page stories 67 68 70 71 73 74 complete with painted cover artwork plus the cover for 69 Sales improved but not enough to save the flagging title The last issue of The Phantom comic was 74 in January 1977 A complete index of the individual stories in each issue of Charlton Comics is available [HERE](#) An analysis of the circulation data and the cover price builds an interesting picture of how this series eventually failed Cover price for the series commenced at 12c and was raised to 15c from 34 20c from 46 25c from 60 and finally 30c from 70 this was common for all American comics at the time At the same time the number of comics being printed was gradually falling but at a lesser rate than the number that were being sold This graph shows what happened By 1976 the paid circulation was less than 40% compared with a peak of 65% in 1965 Not even the brilliant efforts of Don Newton were enough to save the title the damage had already been done Simply put the editors at Charlton were too slow to make the necessary corrections The Phantom was

subsequently absent from American newsstands at least in comic book form for the next 10 years Issue Publisher Date 1 17
