Situated Ethics In Educational Research:

Situated Ethics in Educational Research Helen Simons, Robin Usher, 2000 Develops the notion of situated ethics and looks into how ethical issues are practically handled by educational researchers in the field

Situated Ethics in Educational Research Helen Simons, Robin Usher, 2012-11-12 Ethics has traditionally been seen as a set of general principles which can be applied in a range of situations This book argues that in fact ethical principles must be shaped within different research practices and hence take on different significances according to varying research situations The book develops the notion of situated ethics and explores how ethical issues are practically handled by educational researchers in the field Contributors present theoretical models and practical examples of what situated ethics involves in conducting research on specific areas

Ethics and Academic Freedom in Educational Research Pat Sikes, Heather Piper, 2013-12-16 Formal ethical review of research proposals is now almost the default requirement for all staff and students planning research under the auspices of colleges and universities in many parts of the world With notable exceptions the extant literature discussing educational research ethics takes a meta ethical overview is negatively critical about the ethics review process per se or comes from America and focuses specifically on the workings of the Institutional Review Boards IRBs there This book however contains stories of lived experience from the UK Spain New Zealand Bangladesh and Australia dealing with inter alia dissatisfactions with criteria against which research proposals and designs and by extension researchers themselves are judged to be ethical problems encountered in obtaining ethical clearance changes which have had to be made to plans which are believed to have affected the ensuing research process and outcomes cases where ethical issues and difficulties arose and required considered responses despite permission to undertake the research in question being granted and benefits perceived to accrue from ethical review procedures Ethics and Academic Freedom in Educational Research will be of interest to researchers students members of ethics review boards and those teaching research ethics primarily at postgraduate but also at undergraduate level This book was originally published as a special issue of the International Journal of Research and Method in Education

Undoing Ethics Natasha Whiteman, 2012-01-07 Over the past decade researchers from different academic disciplines have paid increasing attention to the productivity of online environments The ethical underpinnings of research in such

settings however remain contested and often controversial As traditional debates have been reignited by the need to respond to the particular characteristics of technologically mediated environments researchers have entered anew key debates regarding the moral legal and regulative aspects of research ethics A growing trend in this work has been towards the promotion of localized and contextualized research ethics the suggestion that the decisions we make should be informed by the nature of the environments we study and the habits expectations of participants within them Despite such moves the relationship between the empirical theoretical and methodological aspects of Internet research ethics remains underexplored Drawing from ongoing sociological research into the practices of media cultures online this book provides a timely and distinctive response to this need This book explores the relationship between the production of ethical stances in two different contexts the ethical manoeuvring of participants within online media fan communities and the ethical decision making of the author as Internet researcher manoeuvring as it were in the academic community In doing so the book outlines a reflexive framework for exploring research ethics at different levels of analysis the empirical settings of research the theoretical perspectives which inform the researcher's objectification of the research settings and the methodological issues and practical decisions that constitute the activity as research The analysis of these different levels develops a way of thinking about ethical practice in terms of stabilizing and destabilizing moves within and between research and researched communities The analysis emphasizes the continuities and discontinuities between both research practice and online media fan activity and social activity in on and offline environments

Researching Ethically across Cultures Anna Robinson-Pant, Nidhi Singal, 2018-02-02 Whether an individual doctoral study or a large scale multidisciplinary project researchers working across cultures face particular challenges around power identity and voice as they encounter ethical dilemmas which extend beyond the micro level of the researcher researched relationship In using a cross cultural perspective on how to conceptualise research problems collect data and disseminate findings in an ethical manner they also engage with the geopolitics of academic writing language inequalities and knowledge construction within a globalised economy It is increasingly recognised that existing ethical codes and paradigms either do not sufficiently address such issues or tend to be rather restrictive and insensitive to multiple and complex cultural and contextual differences This book extends our understanding of the ethical issues and dilemmas faced by researchers in comparative and international education It asks what the relevance of postcolonial theory is for understanding research ethics in comparative and international education whether Western ethical practices in qualitative social research are incompatible with cultures outside the West how a situated approach can be developed for exploring research ethics across cultures and institutions and how informed consent can be negotiated when the process appears to contradict community values and practices In sharing experiences from a wide range of cultural and institutional contexts the authors offer both theoretical resources and practical guidance for conducting research ethically across cultures This book was originally published as a special issue of *Compare: A Journal of Comparative and International Education*
