The Schooling of Girls in Britain and Ireland, 1800- 1900 Jane McDermid,2013-03-07 This book compares the formal education of the majority of girls in Britain and Ireland in the nineteenth century Previous books about Britain invariably focus on England and such British studies tend not to include Ireland despite its incorporation into the Union in 1801 The Schooling of Girls in Britain and Ireland 1800 1900 presents a comparative synthesis of the schooling of working and middle class girls in the Victorian period with the emphasis on the interaction of gender social class religion and nationality across the UK It reveals similarities as well as differences between both the social classes and the constituent parts of the Union including strikingly similar concerns about whether working class girls could fulfill their domestic responsibilities What they had in common with middle class girls was that they were to be educated for the good of others This study shows how middle class women used educational reform to carve a public role for themselves on the basis of a domesticated life for their lower class sisters confirming that Victorian feminism was both empowering and constraining by reinforcing conventional gender stereotypes **Children's Books in Print, 2007** ,2006 **Experiencing Immersion in Antiquity and Modernity** Emma Cole,2025-07-10 This book examines the links between experiencing immersion in antiquity and modernity Immersive experiences are big business within today s creative economy Forms range from immersive museum exhibitions theatrical performances art installations and experiences facilitated through virtual and augmented reality technologies Yet the idea of immersion is not new paintings sculpture and theatre have all been theorised historically in terms of illusion realism and immersion From antiquity to modernity there has been an interest in theorising the relationship between reality and virtual realities and in contemplating whether feeling present in an alternate universe is a sought after experience or something problematic and dangerous The chapters in this volume explore the warnings against immersion voiced by Plato and embodied in the figure of the Homeric sirens contrasted with the pro immersion perspectives championed by Aristotelian mimesis and embodied in the concept of enargeia The volume also examines the integration of the ancient world into immersive novels games museum exhibitions and theatrical performances Practice as Research contributions explore the benefits of this synergy from practitioner perspectives Contributors from diverse fields including classical reception studies art history game studies heritage studies and theatre studies approach the interplay between antiquity and modernity from varied standpoints Together they uncover previously unforeseen connections across disciplines
