Bordering Nira Yuval-Davis, Georgie Wemyss, Kathryn Cassidy, 2019-06-10 Controlling national borders has once again become a key concern of contemporary states and a highly contentious issue in social and political life But controlling borders is about much more than patrolling territorial boundaries at the edges of states it now comprises a multitude of practices that take place at different levels some at the edges of states and some in the local contexts of everyday life in workplaces in hospitals in schools which taken together construct reproduce and contest borders and the rights and obligations associated with belonging to a nation state This book is a systematic exploration of the practices and processes that now define state bordering and the role it plays in national and global governance Based on original research it goes well beyond traditional approaches to the study of migration and racism showing how these processes affect all members of society not just the marginalized others The uncertainties arising from these processes mean that more and more people find themselves living in grey zones excluded from any form of protection and often denied basic human rights **Rob Parsons: Heart of Success, Money Secret, Wisdom House** Rob Parsons, 2018-03-22 The Heart of Success The Money Secret and The Wisdom House capture wisdom from Rob's own experiences and of others he's met Rob Parsons has an uncanny ability for asking life's most challenging questions in an unobtrusive way Jill Garrett The Gallup Organisation Before you read one more book on how to climb the corporate ladder read this it will help you make sure the ladder is leaning against the right wall Kevin Kaiser INSEAD Get ready for an incredible journey of self discovery Bob Gorzynski author of The Strategic Mind
