Apes and Angels Ben Bova, 2016-11-22 Six time Hugo Award winner Ben Bova chronicles the saga of humankind's expansion beyond the solar system in *Apes and Angels* the second book of the *Star Quest* Trilogy which began with *Death Wave*. Humankind headed out to the stars not for conquest nor exploration nor even for curiosity. Humans went to the stars in a desperate crusade to save intelligent life wherever they found it. A wave of death is spreading through the Milky Way galaxy an expanding sphere of lethal gamma radiation that erupted from the galaxy's core twenty eight thousand years ago and now is approaching Earth's vicinity at the speed of light. Every world it touched was wiped clean of all life. But it's possible to protect a planet from gamma radiation. Earth is safe. Now guided by the ancient intelligent machines called the Predecessors men and women from Earth seek out those precious rare worlds that harbor intelligent species determined to save them from the doom that is hurtling toward them. The crew of the *Odysseus* has arrived at Mithra Gamma the third planet of the star Mithra to protect the stone age inhabitants from the Death Wave. But they'll also have to protect themselves. The *Star Quest* Trilogy 1 *Death Wave* 2 *Apes and Angels*. At the Publisher's request this title is being sold without Digital Rights Management Software DRM applied.

Tiger's Claw Dale Brown, 2012-09-04 Former Air Force captain and New York Times bestselling author Dale Brown is an acknowledged master when it comes to bringing military action to breathtaking life and he has received glowing accolades since his debut publication *Flight of the Old Dog*. *Tiger's Claw* proves once again that every rave has been well deserved. Set in the near future *Tiger's Claw* imagines a scenario in which tensions escalate between an economically powerful China and a United States weakened by a massive economic downfall bringing the two superpowers to the brink of total destruction. Brown's popular protagonist retired Air Force lieutenant general Patrick McLanahan of *A Time for Patriots*, *Rogue Forces* and other Brown bestsellers is back with his son Brad McLanahan and they're preparing for the impending apocalyptic clash of men and military technology. The incomparable Dale Brown scores again with a frighteningly possible story of war and global politics that's ideal for fans of Vince Flynn and Brad Thor.

On December 31, 2012, the end of the world did not come as the legendary Mayan prophecy had predicted. Humanity continued to thrive, and everything continued as usual, following the established trajectory of humanity. Everyone assumed that the doomsday predictions would once again become a joke, just like before. But there are often unexpected things in the world, and when this unexpected thing is a disaster, it will make people feel like they are being raped because you have no way to resist. Fatal Terrain Dale Brown, 2024-07-16. The People's Republic of China has launched a terrifying attack against Taiwan. Cold Swift Deadly. The U.S. isn't willing to stand by and watch, but when they come to Taiwan's aid, they're dealt an unexpected blow from Chinese forces. It looks like the U.S. is going down. Until aerial strike warfare expert Patrick McLanahan and genius Jon Masters come into the picture. Together, they have created a monster: the EB-52 Megafortress. A high-tech display of weaponry, fully equipped with stealth cruise missiles. The most sophisticated bomber the world has ever seen. The unsinkable flying battleship. Now China is on its way to a nuclear high noon. And the Doomsday clock is ticking. Dreamland Phil Patton, 2012-10-31. There is a place in the Nevada desert, the size of Belgium, that doesn't officially exist. It is the airbase where test flights of our top secret experimental military aircraft are conducted, and not coincidentally, where the conspiracy theorists insist the Pentagon is hiding UFOs and aliens. This is Dreamland, or Area 51. For Phil Patton, the idea of writing a travel account of a place he couldn't actually visit was irresistible. What he found was a world where Chick Yeager and the secret planes of the Cold War converged with the Nevada Test Site and alien landings at Roswell. A think tank for aviation engineering, Dreamland can be seen from a summit outside the base's perimeter, a hundred miles north of Las Vegas. On Freedom Ridge, groups of airplane buffs gather with their camouflage outfits and binoculars. These are the Stealth chasers, the Skunkers, guys with code names

like Agent X and Zero hoping for a glimpse of the rumored raylike shapes of planes like Black Manta and the mother ship The most mysterious craft is Aurora the successor to the legendary U 2 said to run on methane and fly as fast as Mach 6 Scanning the same horizon the UFO buffs are looking for the hovering lights and doughnut shaped contrails of alien aircraft Are they looking at something sinister and mysterious Imagined Or more terrestrial than they think Dreamland shows how much we need mystery in the information age and how the cultures of nuclear power and airpower merge with the folklores of extraterrestrials and earthly conspiracies Patton found people who found themselves in the mysteries of the place John Lear the son of aviation pioneer Bill Lear who gave his name to the jet served as a pilot for the CIA s Air America but back home he became fascinated by UFOs and eventually believed in it all the underground bases the alien human hybrids the secret treaties But was he a true believer or part of a disinformation campaign Bob Lazar seems to know when the saucers will come and has made three clear sightings at night along Dreamland s perimeter but is his story real or a vision of what s possible Dreamland is an exploration of America s most secret place the base for our experimental airplanes the fount of UFO rumors an offshoot of the Nevada Test Site How this blackspot came to exist its history its creators its spies and counterspies is Phil Patton s tale He tunnels into the subcultures of the conspiracy buffs the true believers and the aeronautic geniuses creating a novelistic tour de force destined to make us all rethink our convictions about American know how and alien inventiveness
