

A large cruise ship is seen from a distance, sailing on a dark blue, choppy sea. The ship is white with a dark hull and has multiple decks visible. The sky is overcast with grey clouds. The overall mood is somber and dramatic.

Sweet Dreams Bitter Awakenings:

Sweet Dreams . . . Bitter Awakenings Patricia A. Lively, 1997-06-01 **Performing Power** Arnout van der Meer, 2021-02-15

Performing Power illuminates how colonial dominance in Indonesia was legitimized maintained negotiated and contested through the everyday staging and public performance of power between the colonizer and colonized Arnout Van der Meer s Performing Power explores what seemingly ordinary interactions reveal about the construction of national racial social religious and gender identities as well as the experience of modernity in colonial Indonesia Through acts of everyday resistance such as speaking a different language withholding deference and changing one s appearance and consumer behavior a new generation of Indonesians contested the hegemonic colonial appropriation of local culture and the racial and gender inequalities that it sustained Over time these relationships of domination and subordination became inverted and by the twentieth century the Javanese used the tropes of Dutch colonial behavior to subvert the administrative hierarchy of the state Thanks to generous funding from the Sustainable History Monograph Pilot and the Mellon Foundation the ebook editions of this book are available as Open Access OA volumes from Cornell Open cornellpress.cornell.edu/cornell-open and other Open Access repositories

Europe Zygmunt Bauman, 2013-05-08 More than ever before our conflict ridden drifting planet needs the qualities that Europe unique among the continents has developed in more than two millennia of history its self criticism its urge to self transcendence exploration and experiment its conviction that alternative and better forms of human togetherness can be achieved as well as its dedication to the cause of seeking and promoting this improvement in practice But today Europe is unsure of itself and its place in a fast changing world it is devoid of vision limited in resources and lacking the will to pursue its vocation It is also struggling with the consequences of a one sided process of globalization which is divorcing power from politics inciting the shift from the social state to security focused governance and piling up the casualties of uncontrolled market expansion and the ethically blind commercialization of human life Bauman argues that despite the odds Europe still has much to offer in dealing with the great challenges that face us in the twenty first century Through sharing its own hard won historical lessons Europe can play a vital role in moving from the Hobbesian like world in which we find ourselves today towards the kind of peaceful unification of humanity that was once envisioned by Kant

Brexit populism and Euroscepticism seem to have challenged old assumptions about European integration and raised the prospect of disintegration This book re examines why the European Union and its forerunners were created and investigates how and why they have changed It links contemporary events to historical explanation arguing that there were long term sets of conditions dating back to the 1920s which pushed European governments to cooperate economically and to try to resolve their diplomatic differences The failure of the French and German governments to create what Aristide Briand had called a European federal union demonstrated both the precariousness of the enterprise and its connection to the domestic politics of European states After 1945 the unexpected advent of a Cold War and the military diplomatic and economic presence of the United States in Europe facilitated the gradual development of habits of cooperation and institutional integration but they also placed limits on European governments activities as did disagreements between political parties and the expectations of citizens As a consequence

supranational bodies such as the European Commission have been accompanied and often overshadowed by intergovernmental institutions such as the European Council with the EU as a whole functioning in important respects as a type of confederation The volume addresses a series of large scale historical questions which are integral to an understanding of the European Union It asks how and why citizens of member states have identified with the EU how matters of security affected the development of the European Community during and after the Cold War whether economic and social convergence have taken place and with what consequences and why European institutions have come to function as they have The study is thematic focusing on the most important aspects of European integration and explaining why member states have decided to carry out or have consented to the unique experiment of the European Union
