Residential Schools Contributors here examine the impact of aesthetic and sensory experience in residential school history at
TRC national and community events and in artwork and exhibitions not affiliated with the TRC Using the framework of
aesthetic action the essays expand the frame of aesthetics to include visual aural and kinetic sensory experience and question
the ways in which key components of reconciliation such as apology and witnessing have social and political effects for
residential school survivors intergenerational survivors and settler publics This volume makes an important contribution to
the discourse on reconciliation in Canada by examining how aesthetic and sensory interventions offer alternative forms of
political action and healing These forms of aesthetic action encompass both sensory appeals to empathize and invitations to
join together in alliance and new relationships as well as refusals to follow the normative scripts of reconciliation Such
refusals are important in their assertion of new terms for conciliation terms that resist the imperatives of reconciliation as a
form of resolution This collection charts new ground by detailing the aesthetic grammars of reconciliation and conciliation
The authors document the efficacies of the TRC for the various Indigenous and settler publics it has addressed and consider
the future aesthetic actions that must be taken in order to move beyond what many have identified as the TRC s political

Sugar rush Karen Throsby, 2023-06-20 In the second decade of the twenty first century the crusade against sugar rose to prominence as an urgent societal problem about which something needed to be done Sugar was transformed into the common enemy in a revived war on obesity levelled at unhealthy foods and the people who enjoy them Are the evils of sugar based on purely scientific fact or are other forces at play Sugar rush explores the social life of sugar in its rise to infamy The book reveals how competing understandings of the problem of sugar are smoothed over through appeals to science and the demonization of fatness with politics and popular culture preying on our anxieties about what we eat Drawing on journalism government policy public health campaigns self help books autobiographies and documentaries the book argues that this rush to blame sugar is a phenomenon of its time finding fertile ground in the era of austerity and its attendant inequalities Inviting readers to resist the comforting certainties of the attack on sugar Sugar rush shows how this actually represents a politics of despair entrenching rather than disrupting the inequality riddled status quo
