robustness by analysing how local commoners reacted to but also shaped changes by adapting and transforming common property institutions Thus the volume highlights how institutional changes in the management of the commons on the local level are embedded in the public policies of the respective cantons and the state which generates a high heterogeneity and an actual laboratory situation It shows the very different ways that local collective organisations and their members have followed in order to cope with the loss of value of the commons and the increased workload for maintaining common property management Providing insightful case studies of commons management this volume delivers theoretical contributions and lessons to be learned for the commons worldwide This book will be of great interest to students and scholars of the commons natural resource management and agricultural development **Somali Refugees in Switzerland** Joëlle Moret,2006
