*Symbol and Theory* John Skorupski, 1983-03-03 Anthropologists have always been concerned with the difference between traditional or primitive and scientific modes of thought and with the relationships between magic religion and science John Skorupski distinguishes two broadly opposed approaches to these problems the intellectualist regards primitive systems of thought and actions as cosmologies comparable to scientific theory which emerge and persist as attempts to control the natural world the symbolist regards them as essentially representative or expressive of the pattern of social relations in the culture in which they exist Dr Skorupski considers in particular the notions of ritual ceremony and symbol He shows how their understanding involves and suggests more general philosophical problems of relativism interpretation translation and the connections between belief and action These are difficult and important problems and require an unusual combination of imagination and interdisciplinary exercise This book is intended especially for philosophers social anthropologists social theorists and students of comparative religion

*Writing a Commentary on Leviticus* Christian A. Eberhart, Thomas Hieke, 2019-04-15 Writing a commentary on a biblical book is not limited to the scholar's study and desk Hence several experts in the field of Hebrew Bible currently writing a larger commentary on the book of Leviticus followed the invitation of Christian Eberhart and Thomas Hieke to meet between 2014 and 2016 at the Annual SBL Conference They shared their experiences discussed hermeneutical and methodological considerations and presented their ideas about particular themes and issues in the third book of the Torah The results of these consultative panels had significant impact on the production of the commentaries The first part of this volume features essays reflecting on the process of writing a Leviticus commentary including boosts and obstacles while suggesting innovative insights on particular problems of the book The second part identifies certain themes of Leviticus especially sacrifices and rituals the cult the notion of unintentional and deliberate sins and purity impurity the bad and how to eliminate them and the relationship to the sphere of God the holy This section demonstrates how commenting a biblical book highly depends on the perspective a scholar takes and how different commentaries on the same biblical text come to different conclusions because of a diversity of methodological and hermeneutical approaches These are issues innate in the subject matter in the end the variety of approaches bears witness to the complexity intricacy and richness of the biblical text This

**Transitional Justice** Ruti G. Teitel, 2002-03-28 At the century's end societies all over the world are throwing off the yoke of authoritarian rule and beginning to build democracies At any such time of radical change the question arises should a society punish its ancien regime or let bygones be bygones Transitional Justice takes this question to a new level with an interdisciplinary approach that challenges the very terms of the contemporary debate Ruti Teitel explores the recurring dilemma of how regimes should respond to evil rule arguing against the prevailing view favoring punishment yet contending that the law nevertheless plays a profound role in periods of radical change Pursuing a comparative and historical approach she presents a compelling analysis of constitutional legislative and administrative responses to injustice following political upheaval She proposes a new normative conception of justice one that is highly politicized offering glimmerings of the rule of law that in her view have become symbols of liberal transition Its challenge to the prevailing assumptions about transitional periods makes this timely and provocative book essential reading for policymakers and scholars of revolution and new democracies

The Magic of Coin-Trees from Religion to Recreation Ceri Houlbrook, 2018-04-23 This book traces the history of ritual landscapes in the British Isles and the transition from religious practice to recreation by focusing on a highly understudied exemplar the coin tree These are trees imbued with magical properties into which coins have been ritually embedded This is a contemporary custom which can be traced back in the literature to the 1700s when it was practiced for folk medical and dedicatory purposes Today the custom is widespread with over 200 coin trees distributed across the British Isles but is more akin to the casual deposition of coins in a wishing well coins are deposited in the tree in exchange for wishes good luck or future fortune Ceri Houlbrook contributes to the debate on the historic relationships between religion ritual and popular magic in British contexts from 1700 to the present

**Ritual Healing in Suburban America** Meredith B. in the context of these beliefs she shows the many ways the adherents experience ritual healing From publisher s description
