**A Traditionalist History of the Great War, Book II** Alexander Wolfheze,2021-01-27 This book analyzes the world of 1914 by combining the approaches of traditionalist hermeneutics and 20th century geopolitics The juxtaposition of these two frameworks incorporated in the principles of Sacred Geography and Sea Power allows for a Traditionalist perspective on the choices facing the Ten Great Powers on the eve of the Great War The book s multifaceted approach follows the iconoclastic culture critique method of the Traditional School that was developed by Ren Gu non Frithjof Schuon and Julius Evola it shows the pre war world as essentially different from the post war world Thus the Ten Great Power protagonists of the Great War may be understood on their own terms rather than through a backward projection of politically correct values on the existentially different human life world of 1914 Dislodging the historical materialist progress premise that underpins contemporary academic historiography this book reasserts the highest claim of the Art of History meta narrative meaning

**London and Westminster Review** ,1875      **National Identity and Social Cohesion in a Time of Geopolitical and Economic Tension: Australia - European Union - Slovenia** Robert Walters,2020-02-26 This book aims to enrich the thinking and discussion in relation to the importance that citizenship immigration rights and private laws play in the modern world This is in a time when social cohesion and national identity is being challenged It will explore the impact these laws have had on Australia European Union EU and Slovenia Identity and social cohesion are contested concepts and can invoke different responses The challenges states and the EU are likely to face in retaining and even strengthening their respective identities and social cohesion from continued geopolitical shocks security economic volatility and environmental degradation is likely to be formidable These alone pose some of the most complex political and policy issues facing the world The EU can be held up as a polity that has developed an identity and level of cohesion while allowing member states to retain their national identities It has to date also been successful in managing the rise of nationalism However that has come under threat in recent times Thus the very foundations of liberal democracy could be diluted from the impact of these challenges Moreover the basic foundations of rights have in part already been diluted from the rise of terrorism which is acceptable however the geopolitical differences pose a significant challenge in and of themselves      **The Westminster Review** ,1875
