Cohen, Stephen A. Williamson, 1979 *SYMLOG: Technical appendices* Robert Freed Bales, Stephen P. Cohen, Stephen A. Williamson, 1977 [The Multilevel Design](#) Harry Jm Huttner, Pieter van den Eeden, 1995-01-30 In the social sciences phenomena tend to be hierarchically structured so that individuals belong to groups and groups belong to larger organizations and societies Multilevel research stresses this hierarchical structure of social life and necessarily assumes the existence of a particular organization of the procedures of investigation This organization which is fundamental to the research is called a research design Because the research is hierarchical it uses a multilevel design This book provides a detailed overview of the theoretical and methodological aspects of multilevel research based on the multilevel definition of social structure Six chapters discuss the foundations of multilevel research and the applications of its research in the social sciences An annotated bibliography follows which is divided into eight sections on theoretical and methodological issues and on applications of multilevel research Included are books and articles published from 1980 through 1993 [Media communication in everyday life](#) Michael Charlton, 2012-02-14 No detailed description available for Media communication in everyday life *Suggestion and Suggestibility* Vladimir A. Small Groups A. Paul Hare, 1982 A study of how small groups of people can combine for maximum creativity. Hare's approach is to treat creativity as a kind of problem solving and to look at the general characteristics of small groups. Part Two is written for the theorist who wishes to have a framework for understanding group structure and dynamics. Part Three compares individual and group problem solving, highlighting the differences in patterns of interaction associated with the size of the group. A review for researchers, theorists, and those more actively involved in groups. This book draws on Hare's extensive research and practical experience. Effective Group Discussion Gloria J. Galanes, John K. Brilhart, 2004 Written for the small group communication course.
