 The present collection of essays is offered as a contribution towards the realization of a sounder interest in and a more  
 intimate appreciation of certain problems upon which psychology has an authoritative charge to make to the public jury to  
 show that the sound and profitable interest in mental life is in the usual and normal and that the resolute pursuit of this  
 interest necessarily results in bringing the apparently irregular phenomena of the mental world within the field of  
 illumination of the more familiar and the law abiding They further aim to illustrate that misconceptions in psychology as in  
 other realms are as often the result of bad logic as of defective observation and that both are apt to be called into being by  
 inherent mental prepossessions Some of the essays are more especially occupied with an analysis of the defective logic which  
 lends plausibility to and induces credence in certain beliefs others bring forward contributions to an understanding of  
 phenomena about which misconception is likely to arise still others are presented as psychological investigations which it is  
 believed command a somewhat general interest Preface PsycINFO Database Record c 2005 APA all rights reserved

**Mahabharata Quiz Book** Rajendra Pratap Singh,2020-01-01 In reading the history of nations we find that like individuals they have their whims and their peculiarities their seasons of excitement and recklessness when they care not what they do We find that whole communities suddenly fix their minds upon one object and go mad in its pursuit that millions of people become simultaneously impressed with one delusion and run after it till their attention is caught by some new folly more captivating than the first We see one nation suddenly seized from its highest to its lowest members with a fierce desire of military glory another as suddenly becoming crazed upon a religious scruple and neither of them recovering its senses until it has shed rivers of blood and sowed a harvest of groans and tears to be reaped by its posterity At an early age in the annals of Europe its population lost their wits about the sepulchre of Jesus and crowded in frenzied multitudes to the Holy Land another age went mad for fear of the devil and offered up hundreds of thousands of victims to the delusion of witchcraft Preface

Fact and Fable in Psychology Gordon Stables,2022-12-30 Excerpt If that imaginary individual so convenient for literary illustration a visitor from Mars were to alight upon our planet at its present stage of development and if his intellectual interests induced him to survey the range of terrestrial views of the nature of what is in heaven above or on the earth beneath or in the waters under the earth to appraise mundane opinion in regard to the perennial problems of mind and matter of government and society of life and death our Martian observer might conceivably report that a limited portion of mankind were guided by beliefs representing the accumulated toil and studious devotion of generations the outcome of a slow and tortuous but progressive growth through error and superstition and at the cost of persecution and bloodshed that they maintained institutions of learning where the fruits of such thought could be imparted and the seeds cultivated to bear still more richly but that outside of this respectable yet influential minority there were endless upholders of utterly unlike notions and of widely diverging beliefs clamoring like the builders of the tower of Babel in diverse tongues London Medical and Surgical Journal ,1837
