Sympathy Between Humans Jodi Compton, 2006-03-13 **Sympathy Between Humans** Jodi Compton, 2020-11-24 First rate Compton scores big Library Journal starred review Still struggling with the aftermath of the case that almost ended her career Detective Sarah Pribek keeps her demons at bay by doing what she does best Juggling two very different cases a young man missing from a deeply troubled family an unlicensed doctor practicing in the city's projects Sarah has everything at stake Caught up in a cat and mouse game with the investigator who wants to destroy her drawn deeper and deeper into a family's tangled history Sarah knows that a misstep on her part will end not only in her disgrace but in the death of one of those she has promised herself she will protect Fans of the sinuous character driven puzzlers of Minette Walters Ruth Rendell or Thomas H Cook will find Compton a promising new voice in psychological suspense Booklist A multilayered touching tale of crimes and misdemeanors Publishers Weekly

Human Nature, Mind and the Self in Adam Smith's Moral Philosophy Riccardo Bonfiglioli, 2024-04-24 This book investigates the problematisation in Adam Smith's moral philosophy of a classical question what makes us human beings from a moral standpoint To do this Riccardo Bonfiglioli explores the relationship between the concepts of human nature mind and the self in order to reconstruct Smith's theory of subjectivity After providing a systematic reconstruction of Adam Smith's conceptions of human nature mind and the self exploring some aspects of Smith's philosophy nature philosophy of history sympathy and imagination and their empirical expressions education conduct and character Bonfiglioli argues that in Adam Smith's work the meaning of moral human beings would depend on the human being's effort to live in harmony with oneself and the others According to Bonfiglioli in Smith's moral theory this harmony with oneself and the others would be achieved in relation to a certain kind of awareness that can be possible when human beings try to judge the conduct and try to act according to the impartial spectator Specifically this impartial spectator is reinterpreted by the author in the light of the concept of immediacy

The Animal Rights/Environmental Ethics Debate Eugene C. Hargrove, 1992-01-01 Reprints 11 articles and chapters of books that document the environmental ethics view of the animal rights movement exploring whether animal welfare considerations can provide a basis for an environmental ethic Offered as a view of wildlife to complement and challenge at times the animal rights literature which focuses on domestic animals and subjects of experiments Paper edition unseen 14 95 Annotation copyrighted by Book News Inc Portland OR

Writing about Animals in the Age of Revolution Jane Spencer, 2020 Explores a broad canvas of canonical and non canonical writing during the late eighteenth and early nineteenth centuries to trace a connection between shifting attitudes to animals and the emergence of radical political claims based on universal rights

The Body Unbound Katherine Lu Hsu, David Schur, Brian P. Sowers, 2021-09-22 This book explores the body's physical limits and the ways in which the confines of the body are delineated transgressed or controlled in literary and philosophical texts Drawing on classics philosophy religious studies medieval studies and critical theory and examining

material ranging from Homer to Game of Thrones this volume facilitates an interdisciplinary investigation into how the boundaries of the body define the human form in language This volume s essays suggest that the body s meaning is perhaps never more evident than in the violation of its wholeness The boundaries of the body are areas of transition between states and are therefore vulnerable As individuals find themselves isolated from their world and one another their bodies regularly allow for physical interactions incur transgressions and violations and undergo profound transformations Thus sympathy sexuality disease and violence are among the main themes of the volume which ultimately reexamines the place of the body in our understanding of what it means to be human

Moral Psychology in History: From the Ancient to Early Modern Period Virpi Mäkinen, Simo Knuuttila, 2024-10-09 This book provides a comprehensive study of major issues of moral psychology throughout history from ancient to early modern philosophy The volume focuses primarily on the Western history of philosophy but also deals with Jewish and Islamic heritage The Introduction chapter lays out the historical background in broad strokes giving the reader the lay of the land when it comes to the terms of analysis and their overall development within the Western tradition of moral psychology The book continues by studying and analyzing moral anthropology moral agency and motivation virtues and social and political commitments taking a thematic approach in a specific time period and focus on the most unique and or fruitful discussions about a particular historically situated discussion when it comes to thinking about questions and or problems in the field of moral psychology Aimed at both a layman and academic audience this book is of great interest to a broad readership

Wolf Totem and the Post-Mao Utopian Xiaojiang Li, 2018-03-12 Wolf Totem and the Post Mao Utopian by Li Xiaojiang explores the controversial best selling novel by the political economist Jiang Rong as an allegory of utopia through discussion of an encyclopaedic range of scholarship in the humanities and social sciences that offer thinking on topics introduced in the novel In promoting the significance of utopian thought Li stresses that the term for her study post utopian criticism is not the same as anti utopian criticism but an analytical approach to criticism in order to addresses the shortcomings of postmodern and postcolonial theories applied to contemporary China and to open up interpretive space for the specific historical experience of its people and its utopian ideals

Reading the Human Body Mladen Popović, 2007-07-30 This study deals with physiognomic and astrological texts from the Dead Sea Scrolls that represent one of the earliest examples of ancient Jewish science For the first time the Hebrew physiognomic astrological list 4Q186 4QZodiacal Physiognomy and the Aramaic physiognomic list 4Q561 4QPhysiognomy are comprehensively studied in relation to both physiognomic and astrological writings from Babylonian and Greco Roman traditions New reconstructions and interpretations of these learned lists are offered that result in a fresh view of their sense function and status within both the Qumran community and Second Temple Judaism at large showing that Jewish culture in Palestine participated in the cultural exchange of learned knowledge between Babylonian and Greco Roman cultures

Materiality in Modernist Short Fiction Laura Oulanne, 2021-05-30 Materiality in Modernist Short Fiction provides a fresh approach to reading

material things in modern fiction accounting for the interplay of the material and the cultural This volume investigates how Djuna Barnes Katherine Mansfield and Jean Rhys use the short story form to evoke the material world as both living and lived and how the spaces they create for challenging gendered social norms can also be nonanthropocentric spaces for encounters between the human and the nonhuman Using the unique knowledge created by literary works to spark new conversations between phenomenology cognitive studies and new materialisms complemented with a feminist perspective this book explores how literature can touch the basic experience of being in feeling and making sense of a material world that is itself alive and active From a sensitive reading of how three women used the material world to make their readers see feel and question the norms shaping our experience this volume draws a theory of reading affective materiality that illuminates modernism and the short story form but also reaches beyond them The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license Human nature and the social order Ch.H. Cooley, *The Proud Self* Lorenzo Greco, 2025-05-30 This book presents a novel interpretation of Hume as a proponent of sentimental virtue ethics This interpretation sheds light on the nature of Hume's ethics as well as its relevance for contemporary debates in moral philosophy The book starts by developing an understanding of the self in Hume based on the passion of pride Contrary to the common view that Hume denies the unity of the self by diluting it into a bundle or collection of different perceptions the author argues that by focusing on pride it is possible to identify in Hume a firm notion of the self as having a sentimental nature that can be explained in narrative terms Pivoting on this narrative self he shows how it accounts for the Humean notion of the virtuous person by holding together in a harmonious whole several central issues in Hume's moral philosophy including sympathy the point of view from which we make moral judgements the practical nature of ethics and the role that reflection plays in it and the definition of perfect character Finally the author maintains that Humean virtue ethics so understood has the individual at its core representing a secular and pluralist alternative to neo-Aristotelian versions discussed today The Proud Self will appeal to scholars and graduate students working on Hume 18th century philosophy virtue ethics and moral psychology

Justice, Dissent, and the Sublime Mark Canuel, 2012-07 Read the Romantics from the perspective of both political theory and literary studies and consider justice through the lens of the sublime In the past ten years theorists from Elaine Scarry to Roger Scruton have devoted renewed attention to the aesthetic of beauty Part of their discussions claim that beauty because it arises from a sense of proportion symmetry or reciprocity provides a model for justice Justice Dissent and the Sublime makes a significant departure from this mode of thinking Mark Canuel argues that the emphasis on beauty unwittingly reinforces in the name of justice the constraints of uniformity and conventionality He calls for a more flexible and inclusive connection between aesthetics and justice one founded on the Kantian concept of the sublime The sublime captures the roles that asymmetry complaint and disagreement play in a complete understanding of a just society a point the author

maintains that was appreciated by a number of Romantic writers including Mary Shelley Canuel draws interesting connections between the debate about beauty and justice and issues in cosmopolitanism queer theory and animal studies

Female Sexualization Frigga Haug,1999-10-17 Taking as their theme the sexualization of the body in particular women s sexualization and the construction of gender Frigga Haug and the other authors of this book make a contribution to these debates by taking their own bodies as objects of study **Shakespeare's Musical Imagery** Christopher R.

Wilson,2011-11-03 Music pervades Shakespeare s work In addition to vocal songs and numerous instrumental cues there are thousands of references to music throughout the plays and many of the poems This book discusses Shakespeare s musical imagery according to categories defined by occurrence in the plays and poems In turn these categories depend on their early modern usage and significance Thus instruments such as lute and viol deserve special attention just as Renaissance ideas relating to musical philosophy and pedagogical theory need contextual explanation The objective is to locate Shakespeare s musical imagery reference and metaphor in its immediate context in a play or poem and explain its meaning Discussion and explanation of the musical imagery suggests a range of possible dramatic and poetic purposes these musical references serve

Gold, 2021-04-10 *Energy Ecocriticism and Nineteenth Century Fiction* Novel Ecologies draws on energy concepts to revisit some of our favorite books Mansfield Park Jane Eyre Great Expectations and The War of the Worlds and the ways these shape our sense of ourselves as ecological beings Barri J Gold regards the laws of thermodynamics not solely as a set of physical principles but also as a cultural and conceptual form that we can use to reimagine our historically vexed relationship to the natural world Beginning with an examination of the parallel inceptions of energy and ecology in the mid nineteenth century this book considers the question of how we may better read and interpret our world developing a recipe for experimental reading and insisting upon the importance of literary studies in a world driving to ecological catastrophe **The Empathetic Emotions in the History of Philosophy** ,2025-05-11 Empathy is widely discussed both in philosophy and more generally One might ask what empathy itself is and how it relates to specific emotions such as sympathy This volume is concerned with theories of emotions that can be described as empathetic either because they presuppose the human capacity for empathy or because they are essential to how empathy operates By exploring how Western philosophers from Ancient Greece up to the twentieth century have understood these emotions it becomes possible not only to gain a deeper understanding of certain empathetic emotions and their relation to the concept of empathy but to also see how these emotions are placed within a broader moral social or religious context Taking into account this context is essential when it comes to engaging with a number of compelling questions Does sympathy provide an adequate basis for a theory of human sociability and fellowship What roles do compassion and pity play in our moral lives and in the formation of the practical identities of human beings Can the altruistic character and concern for others that is traditionally ascribed to certain emotions be reconciled with competing values like self love and the self directedness of its concerns Empathetic Emotions in the History of Philosophy provides answers to these important questions *Human Physiology; Illustrated by Engravings* Robley Dunglison (M.D.), 1836
