Synergic Power James Harvey Craig, Marguerite Craig, 1979-06 **Synergic Power Beyond Domination and Permissiveness** James Harvey Craig, Marguerite Craig, 1974 *The Quality of Life: Systems Approaches* G.E. Lasker, 2014-05-20 Applied Systems and Cybernetics covers the proceedings of the International Congress on Applied Systems Research and Cybernetics The book presents several studies that cover the application of systems research and cybernetics in improving the quality of life Majority of the materials in the text tackle various aspects of quality of life in relation to systems and cybernetics such as living space future prospects work education politics law ethics and values culture and ethnicity and social systems The selection also presents articles that cover the elemental properties of quality of life such as the concept views indicators and dimension The book will be of great interest to any scientists regardless of disciplines since it covers the main purpose of science the improvement of quality of life Complex Interpersonal Conflict Behaviour Evert Van der Vliert, 2013-05-24 This book is about reactions to interpersonal conflict such as avoiding negotiating and fighting It breaks away from the prevailing assumption that conflict behaviours are mutually isolated reactions having mutually isolated effects Instead reactions are viewed as components of complex conflict behaviour that influence each other's impact on the substantive and relational outcomes The simultaneous and sequential occurrence of for example problem solving and fighting should therefore be studied together and not separately The author presents a ladder of stepwise increases in theoretical quality and designs the sequence of chapters in such a way that the theoretical value increases step by step The lower steps lead to the description of behavioural components and to a model of integrative and distributive dimensions The upper steps lead to the dimensions of dual concern for one's own and the other's goals and to complexity explanations in terms of the novel paradigm of conglomerated conflict behaviour The chapters are summarised into thirty four interrelated propositions Six empirical studies demonstrate the validity of crucial propositions at each level of the theoretical framework This monograph primarily reaches out to an academic readership However due to its clear structure its comprehensive propositions its frequent use of figures and its glossary the book will also provide an invaluable resource for any student and practitioner interested in conflict management and negotiation **Transforming Power** Seth Kreisberg, 1992-01-01 This book is about power power in the classroom in our schools and in our society Schools teachers students and teaching exist in a churning cauldron of interrelated institutions and social forces Power relations in schools reflect these larger societal forces and the interconnections of our institutions This book is also about empowerment the empowerment of teachers and students It explores the process through which people develop more control over their lives and acquire the skills and dispositions necessary to be critical and effective participants in our society The heart of this book and Kreisberg's unique contribution to the empowerment literature is his elucidation of the difference between power over and power with in his search to understand the nature of power that can empower individuals and communities Kreisberg

draws upon educational political feminist and psychological theory and especially the voices of teachers in his framing of the question What are the dynamics of power that we as teachers can create in our relationships with our students that will be empowering for both our students and ourselves Existential/dialectical Marital Therapy Israel W. Charny,1992 First published in 1992 Routledge is an imprint of Taylor Francis an informa company *You Were Born With Personal Power* Homier Moss,2017-02-01 We are living in the 21st century with unlimited possibilities This is the era that people have been looking forward to for over a thousand years We have access to everything You can truly be do or have anything you want Unfortunately most people remain helpless and powerless to making changes in their lives We live in a world today where people can make changes on their smart phones but can not make changes in their lives The key to your success in life is your personal power Design for Communalilty and Privacy A. H. Esser,2012-12-06 **How Can We Commit The Unthinkable?** Israel W. Charny, 2019-06-26 What would you do to advance the cause of peace in this mad world An outstanding group of professionals in psychology psychiatry sociology political science law education journalism philosophy and the arts answer this question working with the concepts and tools of their fields to build a plan or model for behaviours that are likely to advance man toward peace and nonviolent change They provide a rich sampling of the new ideas for human life that are needed if we are in fact ever to evolve into a more peaceful species The book grew out of a series of sessions organized and chaired by Israel Charny at the annual meetings of the American Ortho psychiatric Association and the American Association for the Advancement of Science The contributions are organized around three themes the person the community and the culture and the world Topics include a model for nonviolent strength to counter aggression by others an examination of the psychology of Adolph Eichmann with some startling conclusions about how men should cultivate their normal aggressive emotions and enjoy fantasies of violence how the American democratic process can be turned unknowingly toward disastrous collective violence and the problem of reducing the contagion of violence spread by daily newscasts of violent events Students as Real People Robert T. Anderson, 2020-02-13 A teacher of communication expresses his concern for thousands of students who are cheating themselves out of a worthwhile education by falling into the accepted role of nonperson uninvolved in the education process In this book the author fosters a belief that success or failure in college depends on communication interdependent efforts of people in a relationship to generate common meaning He proposes to get students to realize that their education is something other students can help them develop as much as teachers The author uses a personal style of writing to talk with the students He uses examples from the students immediate campus environment in challenging them to question their roles in the educational process Written for and tested in interpersonal communication courses the book is also appropriate for teacher education courses orientation to college life courses and for college counseling centers **Federal Probation** ,1979
