Synesius of Cyrene Jay Bregman, 2024-06-28 The conflict of religions during the Christianization of the Greco Roman aristocracy in Late Antiquity is typified by Synesius ca A D 365 70 414 an old fashioned pagan Neoplatonist who studied under Hypatia at Alexandria yet who in A D 410 became the Christian bishop of Ptolemais in Libya Before accepting however he openly stated his objections to certain Christian dogmas Was he a Christian or a baptized Neoplatonist The generation of Synesius saw the rapid decline of paganism Furthermore the Constantinople he visited A D 399 402 was a Greek Christian Rome whose elites were classically educated He returned home an ally of the city s Orthodox Christians He tried to reconcile Neoplatonism with Christianity but a study of his works demonstrates that he was only partially successful Synesius is important for our understanding of the old aristocracy in Late Antiquity His becoming a bishop completes the picture in which we finally see the ancient world transforming itself into the medieval world The life of Synesius one man of Late Antiquity may be viewed as both the recapitulation and anticipation of all the major themes of Classical and Late Antiquity This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1982 Synesius of Cyrene Alice Gardner, 1886 **Synesius of Cyrene : Philosopher and Bishop** Alice Gardner, 2017-09-13 Synesius of Cyrene philosopher and bishop 208 Pages **SYNESIUS OF CYRENE** ALICE GARDNER, 2019 *Synesius of Cyrene* Alice Gardner, 2015-02-17 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant Synesius of Cyrene Alice Gardner, 2015-08-11 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations

Holy Bishops in Late Antiquity Claudia Rapp,2013-05-01 Between 300 and 600 Christianity experienced a momentous change from persecuted cult to state religion One of the consequences of this shift was the evolution of the role of the bishop as the highest Church official in his city from model Christian to model citizen Claudia Rapp s exceptionally learned innovative and groundbreaking work traces this transition with a twofold aim to deemphasize the reign of the emperor Constantine which has traditionally been regarded as a watershed in the development of the Church as an institution and to bring to the fore the continued importance of the religious underpinnings of the bishop s role as civic leader Rapp rejects Max Weber s categories of charismatic versus institutional authority that have traditionally been used to distinguish the nature of episcopal authority from that of the ascetic and holy man Instead she proposes a model of spiritual authority ascetic authority and pragmatic authority in which a bishop s visible asceticism is taken as evidence of his spiritual powers and at the same time provides the justification for his public role In clear and graceful prose Rapp provides a wholly fresh analysis of the changing dynamics of social mobility as played out in episcopal appointments

Biblical Commentaries from the Canterbury School of Theodore and Hadrian Bernhard Bischoff,Michael Lapidge,1994 This volume includes the first edition of a previously unknown text which throws wholly new light on the intellectual history of early medieval Europe The biblical commentaries never before printed or studied represent the teaching of two extraordinarily gifted Greek scholars who came to England from the Byzantine East Theodore archbishop of Canterbury 668-90 and his colleague Hadrian d 710 established a school in Canterbury to which they brought a wealth of experience and learning These scholars applied their knowledge to the exposition of the Bible to a small group of Anglo Saxon scholars who recorded their teaching The

commentaries throw new light on the range of subjects which were taught in Canterbury at the time medicine philosophy rhetoric Roman civil law as well as the biblical text itself illustrating what was undoubtedly the high point of biblical scholarship between late antiquity and the Renaissance Because both Hadrian and Theodore were from Greek speaking parts of the Roman empire their commentaries reveal new links between the Byzantine East and the Latin West in the seventh century The present commentaries found by Professor Bischoff in Milan in 1936 constitute one of the most important medieval texts discovered this century The edition is introduced by substantial chapters on the intellectual background of the texts their manuscript sources the lives and milieux of the two Greek scholars The Latin texts themselves are accompanied by facing English translations and extensive notes

Robert Burton and the Transformative Powers of Melancholy Stephanie Shirilan, 2016-03-03 Few English books are as widely known underread and underappreciated as Robert Burton's *The Anatomy of Melancholy* Stephanie Shirilan laments that modern scholars often treat the *Anatomy* as an unmediated repository of early modern views on melancholy overlooking the fact that Burton is writing a cento an ancient form of satire that quotes and misquotes authoritative texts in often subversive ways and that his express intent in so doing is to offer his readers literary therapy for melancholy This book explores the ways in which the *Anatomy* dispenses both direct physic and more systemic medicine by encouraging readers to think of melancholy as a privileged mental and spiritual acuity that requires cultivation and management rather than cure Refuting the prevailing historiography of anxious early modern embodiment that cites Burton as a key witness Shirilan submits that the *Anatomy* rejects contemporary Neostoic and Puritan approaches to melancholy She reads Burton's erraticism opacity and theatricality as modes of resistance against demands for constancy transparency and plainness in the popular literature of spiritual and moral hygiene of his day She shows how Burton draws on rhetorical theological and philosophical traditions that privilege the transformative powers of the imagination in order to celebrate melancholic impressionability for its capacity to inspire and engender empathy charity and faith

Emperors and Bishops in Late Roman Invective Richard Flower, 2013-05-02 This innovative study illuminates the role of polemical literature in the political life of the Roman empire by examining the earliest surviving invectives directed against a living emperor Written by three bishops Athanasius of Alexandria Hilary of Poitiers Lucifer of Cagliari these texts attacked Constantius II 337-61 for his vicious and tyrannical behaviour as well as his heretical religious beliefs This book explores the strategies employed by these authors to present themselves as fearless champions of liberty and guardians of faith as they sought to bolster their authority at a time when they were out of step with the prevailing imperial view of Christian orthodoxy Furthermore by analysing this unique collection of writings alongside late

antique panegyrics and ceremonial it also rehabilitates anti imperial polemic as a serious political activity and explores the ways in which it functioned within the complex web of presentations and perceptions that underpinned late Roman power relationships

The Omphalos and the Cross Paul Ciholas,2003 In a post Constantine cultural and religious setting Christian theology was marked by a dialectical tension in which the spiritual could no longer be freed from the secular or the eternal from the temporal

Ficino and Fantasy Marieke J.E. van den Doel,2021-12-13 Did the Florentine philosopher Marsilio Ficino 1433 99 influence the art of his time Art historians have been fiercely debating this question for decades This book starts with Ficino s views on the imagination as a faculty of the soul and shows how these ideas were part of a long philosophical tradition and inspired fresh insights This approach combined with little known historical material offers a new understanding of whether how and why Ficino s Platonic conceptions of the imagination may have been received in the art of the Italian Renaissance The discussion explores Ficino s possible influence on the work of Botticelli and Michelangelo and examines the appropriation of Ficino s ideas by early modern art theorists

The Formation of Christendom Judith Herrin,2021-10-19 A groundbreaking history of how the Christian West emerged from the ancient Mediterranean world In this acclaimed history of Early Christendom Judith Herrin shows how from the sack of Rome in 410 to the coronation of Charlemagne in 800 the Christian West grew out of an ancient Mediterranean world divided between the Roman west the Byzantine east and the Muslim south Demonstrating that religion was the period s defining force she reveals how the clash over graven images banned by Islam both provoked iconoclasm in Constantinople and generated a distinct western commitment to Christian pictorial narrative In

Averil Cameron, 1993. Marked by a power shift from Rome to Constantinople and the Christianization of the Empire, this era requires a narrative and interpretative history of its own. Routledge Handbook of Early Christian Philosophy Mark Edwards, 2020-11-29. This volume offers the most comprehensive survey available of the philosophical background to the works of early Christian writers and the development of early Christian doctrine. It examines how the same philosophical questions were approached by Christian and pagan thinkers; the philosophical element in Christian doctrines; the interaction of particular philosophies with Christian thought; and the constructive use of existing philosophies by all Christian thinkers of late antiquity. While most studies of ancient Christian writers and the development of early Christian doctrine make some reference to the philosophic background, this is often of an anecdotal character and does not enable the reader to determine whether the likenesses are deep or superficial, or how pervasively one particular philosopher may have influenced Christian thought. This volume is designed to provide not only a body of facts more compendious than can be found elsewhere, but the contextual information which will enable readers to judge or clarify the statements that they encounter in works of more limited scope. With contributions by an international group of experts in both philosophy and Christian thought, this is an invaluable resource for scholars of early Christianity. Late Antiquity and ancient philosophy alike.
