Health Backwards Cyndi Whatif,2023-09-12 HEALTH BACKWARDS AN ORIGINAL LOOK FROM A DIFFERENT PERSPECTIVE is my attempt to take Albert Einstein s advice He suggested regarding old challenges in new ways I have done just that I would like to share with you what I have learned as a result of accepting this challenge I will be the first one to admit there s a lot of stuff I do not know however I do believe I know something everybody needs to know I share it in this book Healthy living for decades did not work for me I was 40 years old when my doctor told me I had a life expectancy of 38 42 With this news I decided to use my Bachelor of Science degree brain and start experimenting on myself I figured I was already living on borrowed time I started asking different questions These different questions led to different answers which gave me different results Using the same previous methods that did not work for me in the past now worked for me because of the new information I applied I ended up so far living fourteen plus years past my expiration date I also believe I stumbled on the real reason why some people are healthy and some are not My book explains why and how I think we are looking at chronic inflammation backwards I think it is not the problem but the warning light of something else having gone wrong I think chronic inflammation is our body s last ditch effort to protect us by what is coined intelligent disobedience This intelligent disobedience is necessary because of our unhealthy bodies failing to protect and sort for us I have called this concept the Defensive Individual Shield Hypothesis DISH In this book I guide my readers through how I figured out DISH what it does how it affects us and what I did about it when it was not working This book is my journey It shares what I ve done and what I have learned It is not intended for medical advice But with that being said I have a passion to help others by sharing what I have learned I think it is information everyone needs to know My naturopath doctor told me What you are figuring out is going to force science to catch up with you So I ask you What if we don t know what we don t know We know germ theory We know the benefits of a healthy gut We know body meridians We know nutrition matters DO we know we are still missing something What if DISH is the missing piece It made what didn t work now work for me It

helped my body to do its job It eliminated many symptoms It gave me hope
