The Nature Of War:

Rethinking the Nature of War Isabelle Duyvesteyn, Jan Angstrom, 2005 Have globalization virulent ethnic differences and globally operating insurgents fundamentally changed the nature of war in the last decade Interpretations of war as driven by politics and state rationale formulated most importantly by the 19th century practitioner Carl von Clausewitz have received strong criticism Political explanations have been said to fall short in explaining conflicts in the Balkans Africa Asia and the attacks of 11 September 2001 in the United States This book re evaluates these criticisms not only by scrutinising Clausewitz s arguments and their applicability but also by a careful reading of the criticism itself In doing so it presents empirical evidence on the basis of several case studies addressing various aspects of modern war such as the actors conduct and purposes of war

The Nature of War Jim Stempel, 2014-11-26 For over 12 000 years human beings have warred slaughtering each other with persistence and brutality From spear point to thermonuclear ordnance human ingenuity has had a serious downside In the 20th century alone wars claimed more than 90 million lives Yet war s origins meaning and evolution over the millennium remain to this day a mystery Why is warfare almost as old as man himself How is it that a creature capable of producing great art architecture literature medicine and wondrous acts of compassion is simultaneously capable of such cruel and wanton slaughter To answer these and other questions this thoughtful study journeys across time and disciplines to examine and sensibly explain human warfare clarify its source and driving energy and thoughtfully develop the prospect of a true and lasting peace

The Nature of War in the Information Age David J. Lonsdale, 2004 Will the information age witness a transformation in the nature of war Putting the notion to the test the author uses a range of contexts to assess whether the Clausewitzian nature of war will retain its validity

Theory and Nature of War: Syllabus, 1993

Human Nature and the Causes of War John David Orme, 2018-04-07

What are the causes of war Wars are generally begun by a revisionist state seeking to take territory The psychological root of revisionism is the yearning for glory honor and power Human nature is the primary cause of war but political regimes can temper or intensify these passions This book examines the effects of six types of regime on foreign policy monarchy republic and sultanistic charismatic and military and totalitarian dictatorship Dictatorships encourage and unleash human ambition and are thus the governments most likely to begin ill considered wars Classical realism modified to incorporate the impact of regimes and beliefs provides a more convincing explanation of war than neo realism
