The Negroes Share A Study Of Income Consumption Housing And Public Assistance:

The Negro's Share Richard Sterner, 2006-02-01 **The African American Experience** Arvarh E. Strickland, Robert E. Weems Jr., 2000-11-30 Compared to the early decades of the 20th century when scholarly writing on African Americans was limited to a few titles on slavery Reconstruction and African American migration the last thirty years have witnessed an explosion of works on the African American experience With the Civil Rights and Black Power movements of the 1960s came an increasing demand for the study and teaching of African American history followed by the publication of increasing numbers of titles on African American life and history This volume provides a comprehensive bibliographical and analytical guide to this growing body of literature as well as an analysis of how the study of African Americans has changed **The Story of the Negro Retold** Carter G. Woodson, Charles H. Wesley, 2008-05-01 A study of the accomplishments of Africans and African Americans from Carter G Woodson the creator of Black History Month **Postwar** Laura McEnaney, 2018-09-07 When World War II ended Americans celebrated a military victory abroad but the meaning of peace at home was yet to be defined From roughly 1943 onward building a postwar society became the new national project and every interest group involved in the war effort from business leaders to working class renters held different visions for the war s aftermath In *Postwar* Laura McEnaney plumbs the depths of this period to explore exactly what peace meant to a broad swath of civilians including apartment dwellers single women and housewives newly freed Japanese American internees African American migrants and returning veterans In her fine grained social history of postwar Chicago McEnaney puts ordinary working class people at the center of her investigation What she finds is a working class war liberalism a conviction that the wartime state had taken things from people and that the postwar era was about reclaiming those things with the state s help McEnaney examines vernacular understandings of the state exploring how people perceived and experienced government in their lives For Chicago s working class residents the state was not clearly delineated The local offices of federal agencies along with organizations such as the Travelers Aid Society and other neighborhood welfare groups all became what she calls the state in the neighborhood an extension of government to serve an urban working class recovering from war Just as they had made war the urban working class had to make peace and their requests for help large and small constituted early dialogues about the role of the state during peacetime *Postwar* examines peace as its own complex historical process a passage from conflict to postconflict that contained human struggles and policy dilemmas that would shape later decades as fatefully as had the war **The Origins of the African-American Civil Rights Movement** Ai-min Zhang, 2014-05-22 The historical relationship between American urbanization industrialization and the emergence of the civil rights movement is examined in this thesis in order to establish why the African American Civil Rights Movement occurred The book discusses many factors that were fundamental to causing the rise of the civil rights movement It begins with a brief introduction to the African American s political economic and social conditions since the American Civil War and goes on to consider the effects of the

two Great Black Migrations in which millions of black Americans moved to the big industrial cities and began to learn how to make effective use of their voting rights to protect their own interests Finally the book examines the effect of the Second World War and also the role of the Supreme Court

The Segregated Origins of Social Security Mary Poole,2006 The relationship between welfare and racial inequality has long been understood as a fight between liberal and conservative forces In The Segregated Origins of Social Security Mary Poole challenges that basic assumption Meticulously reconstructi

Racial Realignment Eric Schickler,2016-04-26 Few transformations in American politics have been as important as the integration of African Americans into the Democratic Party and the Republican embrace of racial policy conservatism The story of this partisan realignment on race is often told as one in which political elites such as Lyndon Johnson and Barry Goldwater set in motion a dramatic and sudden reshuffling of party positioning on racial issues during the 1960s Racial Realignment instead argues that top party leaders were actually among the last to move and that their choices were dictated by changes that had already occurred beneath them Drawing upon rich data sources and original historical research Eric Schickler shows that the two parties transformation on civil rights took place gradually over decades Schickler reveals that Democratic partisanship economic liberalism and support for civil rights had crystallized in public opinion state parties and Congress by the mid 1940s This trend was propelled forward by the incorporation of African Americans and the pro civil rights Congress of Industrial Organizations into the Democratic coalition Meanwhile Republican partisanship became aligned with economic and racial conservatism Scrambling to maintain existing power bases national party elites refused to acknowledge these changes for as long as they could but the civil rights movement finally forced them to choose where their respective parties would stand Presenting original ideas about political change Racial Realignment sheds new light on twentieth and twenty first century racial politics

Desegregating the Dollar Robert E. Weems,1998-02 Despite African Americans nearly 500 billion collective annual spending power surprisingly little attention has been devoted to the ways U S businesses have courted black dollars in postslavery America Desegregating the Dollar presents the first fully integrated history of black consumerism during the last century

Making Choices, Making Do Lois Rita Helmbold,2022-10-14 Making Choices Making Do is a comparative study of Black and white working class women s survival strategies during the Great Depression Based on analysis of employment histories and Depression era interviews of 1 340 women in Chicago Cleveland Philadelphia and South Bend and letters from domestic workers Lois Helmbold discovered that Black women lost work more rapidly and in greater proportions The benefits that white women accrued because of structural racism meant they avoided the utter destitution that more commonly swallowed their Black peers When let go from a job a white woman was more successful in securing a less desirable job while Black women especially older Black women were pushed out of the labor force entirely Helmbold found that working class women practiced the same strategies but

institutionalized racism in employment housing and relief assured that Black women worked harder but fared worse Making Choices Making Do strives to fill the gap in the labor history of women both Black and white The book will challenge the limits of segregated histories and encourage more comparative analyses
