The New Age Cult:

The New Age Movement and the Biblical Worldview John P. Newport, 1998 John Newport delivers a comprehensive study of the impact of New Age beliefs on contemporary culture and on Christianity itself while also offering an effective biblical antidote to today's worldview crisis After first surveying the historical development of the New Age worldview from ancient times through important tendencies in nineteenth century America to recent Far Eastern influences Newport explores in depth eleven key areas of the New Age worldview and contrasts each area of belief with the traditional biblical worldview *The New Age Movement* Philip H. Lochhaas, 1995 People everywhere are asking What is the New Age This book gives insightful answers to many of your questions regarding this movement and the practices associated with it You'll learn how to identify New Age beliefs when you are confronted with them Most important this easy to follow book gives you practical advice for sharing the Gospel with people involved in the New Age Movement **The Encyclopedic Sourcebook of New Age Religions** James R. Lewis, 2004-08-30 In the late 1980s the New Age movement became the focus of both media attention and widespread ridicule as some of the more outlandish aspects of the movement such as channeling and the use of crystals for healing briefly piqued the public's curiosity While the movement was at its height scholars of religion generally sneered at what was perceived to be a daffy shallow craze and ignored it as a subject of serious study Professor James R. Lewis was among the first to examine this growing religious phenomenon scientifically In previous books he has investigated the New Age as the most visible manifestation of a significant spiritual subculture the roots of which reach back to Theosophy Spiritualism and New Thought The present collection pursues this theme bringing together some of the best recent scholarship on new religions Since the height of its popular influence the New Age has declined in strength but has given rise to a plethora of new denominations all shaped by New Age ideas and spirituality Reflecting the emergence of this new denominational structure the core chapters of this book focus on specific groups Other chapters examine the movement's historical roots A unique feature of Dr Lewis's work is his inclusion of extensive selections from New Age literature thus allowing readers to experience firsthand the unusual perspectives of the various groups This is a fascinating examination of a significant and persistent religious and social phenomenon **The New Age Movement** Margrethe Løøv, 2024-10-02 This Element introduces New Age religion The New Age Movement is a loosely cohesive conglomerate of different spiritual currents with no common founder leader institution dogma or scripture Because of its diversity it may appear amorphous and incoherent at first sight This Element emphasizes both the unity and diversity of the New Age It approaches the phenomenon from three main perspectives 1 the historical development of New Age religion 2 ideas and practices associated with the New Age and 3 the social organization of the New Age movement It thus provides a wide angle view that sketches out some of the main patterns that emerge from a mosaic of individual currents and actors associated with the New Age It also highlights some of the differences within the movement by exploring some ideas and practices in depth **Handbook of New Age**

James Lewis, Daren Kemp, 2007-05-30 The Handbook of New Age is a comprehensive survey of alternative spiritualities their history their global impact their cultural influence and how they are understood by scholars Chapters by many of the leading scholars of the movement give the latest analysis of contemporary spiritual trends and present up to date observations of the interaction between the New Age movement and many different fields of knowledge and research **Unmasking the New Age** Douglas Groothuis, 1986-01-24 Douglas Groothuis explains what the New Age movement is analyzes its major doctrines and shows how it is influencing politics science health care and education *Confronting the New Age* Doug Groothuis, 2010-01-04 The first book to tell you how to confront the New Age The threat is growing So not only do we need to understand the New Age we need to stem the tide of this growing religious movement Here s the first book that tells how You ll find all you need to know for Witnessing to New Age adherents Identifying New Age influences in business seminars Exposing New Age curriculum in our public schools Discerning New Age influences in pop psychology biofeedback therapy visualization and New Age music This book takes you a step beyond other books with its practical advice and sound suggestions The Facts on the New Age Movement John Ankerberg, John Weldon, 1988 John Ankerberg provides answers to the 30 most frequently asked questions about the New Age Movement **New Age Movement** Ron Rhodes, 2016-09-06 Reincarnation auras and energizing crystals surely these are the stuff of fairy tales nothing more People don t really speak to ancient Egyptian holy men or listen seriously to Shirley MacLaine for that matter do they Drawing from a range of occult pagan and pseudo scientific traditions the New Age Movement is broad diffuse hard to nail down and insidiously dangerous Its belief in the divinity of humanity its emphasis on self actualization and its looking forward to a coming utopian new world have tremendous appeal But does it have the truth Perspectives on the New Age James R. Lewis, J. Gordon Melton, 1992-11-03 This book begins with a comprehensive historical section that places the New Age within the context of its predecessor movements It then focuses on specialized aspects of this subculture from essays on the convergence of New Age spirituality with women s spirituality to an essay on how Evangelical Christians have responded to the movement The book also examines the international impact of the New Age
