

A large, leafless tree stands in the center of a dark, misty landscape. A bright light source, possibly the sun or moon, is positioned directly behind the tree's trunk, creating a strong backlighting effect and illuminating the surrounding mist. The sky is filled with dark, swirling clouds. The overall mood is mysterious and dramatic.

The New Ancestors:

The New Ancestors Dave Godfrey,1970 **Ancestors** William H. Newell,2011-07-20 No detailed description available for Ancestors **Invaders as Ancestors** Peter Gose,2008-01-01 Invaders as Ancestors examines how the unique practices involved in Andean ancestor worship first facilitated Spanish colonization and eventually undid the colonial project

Ancestors in My DNA M Warren Cox,2022-02-26 The voices in Jesse s head are not from his imagination they are from his ancestors In this science fiction story Jesse and his family have the ability to talk to relatives who have passed away In scientific terms they can tap into their own junk DNA noncoding DNA that was previously thought to serve no purpose In this area of their DNA they have found the memories the thoughts and even the personalities of their ancestors For Jesse s family this discovery shines a new light on their legacy of mental illness while pointing the way to a cure For humanity it points the way to the next level of evolution The family has drawn the attention of governments evil scientists and greedy relatives who are determined to exploit these abilities for their own purposes They are in perilous danger and only their ancestors can save them if they can master the new voices in time **Towards a Christian Theology of African Ancestors** Thomas Ochieng Otanga,2023-04-21 This book examines the similarities and relationship between Christian saints and African ancestors Further it analyzes the deep cultural roots of African peoples and the ancestral frame as a point of departure for developing an indigenous African theology Questions dealt with include Does the conversion of Africans to Christianity require a break with their African cultural heritage Who is an African ancestor Is syncretism a good thing for an African Christian What contribution can the African church make to the universal church The author argues that rather than being antithetical to formal Christianity an African Christian theology of ancestors is an example of how an indigenous African tradition can best express Christianity as well as make considerable impact on world Christianity **Ancestor Worship and Korean Society** Roger Janelli,Dawnhee Janelli,1992-08-01 The study of ancestor worship has an eminent pedigree in two disciplines social anthropology and folklore Goody 1962 14 25 Newell 1976 Fortes 1976 Takeda 1976 Despite obvious differences in geographical specialization and intellectual orientation researchers in both fields have shared a common approach to this subject both have tried to relate the ancestor cult of a given society to its family and kin group organization Such a method is to be expected of social anthropologists given the nature of their discipline but even the Japanese folklorist Yanagita Kunio whose approach to folk culture stems from historical and nationalist concerns began his work on ancestors with a discussion of Japan s descent system and family structure Yanagita 1946 Indeed connections between ancestor cults and social relations are obvious As we pursue this line of analysis we shall see that rural Koreans themselves are quite sophisticated about such matters Many studies of ancestor cults employ a combination of social and psychological approaches to explain the personality traits attributed to the dead by their living kin Particular attention has long been given to explaining the hostile or punitive character of the deceased in many societies Freud 1950 Opler 1936 Gough 1958 Fortes 1965 Only recently

however has the popularity of such beliefs been recognized in China Korea and Japan Ahern 1973 A Wolf 1974b Kendall 1977 1979 Yoshida 1967 Kerner 1976 Lebra 1976 The earliest and most influential studies of ancestor cults in East Asia produced by native scholars Hozumi 1913 Yanagita 1946 Hsu 1948 overemphasize the benign and protective qualities of ancestors Some regional variations notwithstanding this earlier bias appears to reflect a general East Asian reluctance to acknowledge instances of ancestral affliction Such reticence is not found in all societies with ancestor cults however nor in Korea China and Japan is it equally prevalent among men and women Therefore we seek not only to identify the social experiences that give rise to beliefs in ancestral hostility but to explain the concomitant reluctance to acknowledge these beliefs and its varying intensity throughout East Asia In view of the limited amount of ethnographic data available from Korea we have not attempted a comprehensive assessment of the ancestor cult in Korean society instead we have kept our focus on a single kin group We have drawn on data from other communities however in order to separate what is apparently true of Korea in general from what may be peculiar to communities like Twisongdwi a village of about three hundred persons that was the site of our fieldwork In this task we benefited substantially from three excellent studies of Korean ancestor worship and lineage organization Lee Kwang Kyu 1977a Choi Jai seuk 1966a Kim Taik Kyoo 1964 and from two recent accounts of Korean folk religion and ideology Dix 1977 Kendall 1979 Yet we are still a long way from a comprehensive understanding of how Korean beliefs and practices have changed over time correlate with different levels of class status or are affected by regional variations in Korean culture and social organization Because we want to provide a monograph accessible to a rather diverse readership we avoid using Korean words and disciplinary terminology whenever possible Where a Korean term is particularly important we give it in parentheses immediately after its English translation Korean alphabet orthographies for these words appear in the Character List with Chinese character equivalents for terms of Chinese derivation As for disciplinary terminology we have adopted only the anthropological term lineage which is of central importance to our study We use lineage to denote an organized group of persons linked through exclusively male ties agnatically to an ancestor who lived at least four generations ago

Explaining the Practice of Elevating an Ancestor for Veneration George Shakwelele,2023-06-13 The Bisa people of Nabwalya Zambia love their culture and gladly celebrate all their traditional festivals This book presents exciting research into Kusefya pa ngena rituals through which the Bisa elect ancestors for veneration The Bisa speak freely of how their belief in ancestor veneration does not conflict with their worship of God For them the two work hand in hand Traditional practices are considered vital to the community

because they enhance life reinforce cultural values and explain life events Those questioned said ancestor veneration should continue because it benefits current and future generations For example their most celebrated ancestor Kabuswe Yombwe when petitioned provides rain and a good harvest for the community People affirmed that rain fell each time they petitioned Kabuswe One woman who is married to an elder in a Pentecostal church vowed not to give up ancestor veneration to which she attributed the healing of her son and daughter She pledged her allegiance to both Jesus Christ and to her family s ancestors In another story an ancestor appears in a dream to an expectant woman demanding that her child be given a feminine name The mother obeys to avoid the child being born with a sickness *Jesus Christ as Ancestor* Reuben Turbi Luka,2019-08-31 In this critical study Dr Turbi Luka uses historical theological methodology to engage in detail with Christologies of key African theologians and conventional theological sources for Christology including the church fathers Tertullian and Athanasius as well as modern theologians Turbi argues that existing African Christologies specifically ancestor Christologies are inadequate in expressing the person of Christ as Messiah and saviour the fulfilment of Old Testament prophecies Providing a new approach Turbi proposes an African Linguistic Affinity Christology that explicitly portrays Jesus as Christ in a contextually relevant way for Africans in everyday life This crucial study highlights the need for biblically rooted Christology and for sound theological understanding and naming of Jesus at every level This book also warns the church in Africa and elsewhere to avoid repeating the dangerous christological heresies of the ancient church by remaining faithful to a biblical interpretation and orthodox theology of Christ
