The New Balkans:

The British and the Balkans Eugene Michail, 2011-08-18 **The Balkans** Mark Mazower, 2007-12-18 Throughout history the Balkans have been a crossroads a zone of endless military cultural and economic mixing and clashing between Europe and Asia Christianity and Islam Catholicism and Orthodoxy Subject to violent shifts of borders rulers and belief systems at the hands of the world's great empires from the Byzantine to the Habsburg and Ottoman the Balkans are often called Europe's tinderbox and a seething cauldron of ethnic and religious resentments Much has been made of the Balkans deeply rooted enmities The recent destruction of the former Yugoslavia was widely ascribed to millennial hatreds frozen by the Cold War and unleashed with the fall of communism In this brilliant account acclaimed historian Mark Mazower argues that such a view is a dangerously unbalanced fantasy A landmark reassessment The Balkans rescues the region's history from the various ideological camps that have held it hostage for their own ends not least the need to justify nonintervention The heart of the book deals with events from the emergence of the nation state onward With searing eloquence Mazower demonstrates that of all the gifts bequeathed to the region by modernity the most dubious has been the ideological weapon of romantic nationalism that has been used again and again by the power hungry as an acid to dissolve the bonds of centuries of peaceful coexistence The Balkans is a magnificent depiction of a vitally important region its history and its prospects The New Balkans Hamilton Fish Armstrong, 1926 Beyond the Balkans Sabine Rutar, 2014 This book shows how current and future research on the social history of the Balkans can be integrated into a broader European framework The contributions look at a range of methodological and empirical issues and the theme that links the various studies is that of the contrasting yet at the same time entangled ideas of the Balkans as a mental map and of Southeast Europe as an historical region Series Studies on South East Europe Vol 10 *The Balkans in Focus* Barbara Törnquist-Plewa, 2003-01-01 Discussing the complex weave of cultural links and the different religious and linguistic groups that have been living side by side in the Balkans for centuries this anthropological study is the result of a project initiated to create a network of scholars from Scandinavia and the Yugoslav successor states devoted to the study of post Yugoslav cultural and political developments Nine papers on problems of cultural boundaries are presented with the idea of countering the picture of the Balkans as a huge borderland where irresolvable age old ethnic and religious rivalries will inevitably cause conflict as informed by stereotypes and oversimplifications Topics include the historical crossing of religious borderlines the legitimizing efforts of elites to create national identities struggles to declare ownership over the origins of a particular musical instrument and similar topics

The World's Work, 1919 A history of our time A History of the War in the Balkans R. Craig Nation, 2018-04-04 The Balkans is often described as a grim backwater a no man's land of world politics in the words of a post World War II study foredoomed to conflict springing from heterogeneity The stereotype is false but it has been distressingly influential in shaping perceptions of the Balkan conflict and its origin By encouraging pessimism about prospects for recovery it may also

make it more difficult to sustain commitments to post conflict peace building This book seeks to refute simplistic ancient hatreds explanations by looking carefully at the sources and dynamics of the Balkan conflict in all of its dimensions

Transnational and Transatlantic Perspectives on the Balkans, 1850-1918 Eva Tamara Asboth, 2025-09-01 This book considers the position and historiography of the western Balkans in modern Europe It challenges the linear narrative that the region was Europeanised in the twentieth century that is brought into a wider fold of European countries through political social and cultural exchanges Instead it develops the concept of a European Orient to highlight how the position of the western Balkans shifted in the European imagination during this period It investigates specific examples of cultural encounters involving travellers and migrants between South east Europe and the West and situates these developments in the context of nineteenth and twentieth century geopolitics In doing so it shows how European scholars as well as US migrants from South east Europe constructed a historiography of the region and will be of interest to historians interested in the Balkans in particular and south eastern Europe in general

The Balkans in International Relations Branimir M Jankovic, Bosko Milosavljevic, 1988-04-06

Greece in the Balkans Othon Anastasakis, Dimitar Bechev, Nicholas Vrousalis, 2020-07-13 This volume brings together young researchers in an interdisciplinary study of Greek interaction with other Balkan states over the past two hundred years The thirteen chapters of the volume reflect the diversity of a long and complex relationship between Greece and its Balkan neighbours They thus shed refreshing light on its persistent attributes of opportunity and risk attraction and enmity exchange and exclusion through exploration of historical anthropological literary political and economic perspectives
